Remaining in the Almshouse.

Ellen Crane	. . . .	aged 47 years.
Margaret McWhirk	. . .	" 41 "
James Snow	. . .	" 76 "
Joseph Hunt	. . .	" 76 "

In addition to the above, 177 transient persons have been furnished with food and lodgings.

HIGHWAY DEPARTMENT.

Report of the Superintendent of Highways.

The work upon the roads has been carried on under the same system as last year, which is to employ several gangs at the same time on the different sections, all under the direction of the Superintendent.

The roads have been kept in continuous repair with as little annoyance to travel as possible, it being always in view to avoid heavy dressings of new material in any one place at a time, and to maintain condition by constant repairs.

At several points, permanent works were necessary, and these have been well done, on the principle that economy demands thorough work in such cases, that the work may not require doing over again.

By following this course, and taking up one such piece of work after another, each year doing its portion, the town, after a while, will be supplied with good and lasting bridges, culverts and roads, through all its sections.

This year the principal extra job has been the cutting down Poplar Hill (so called) and widening Dry Bridge some ten feet, which has been substantially done at a cost of $1,456.15, for which the Society for Prevention of Cruelty to Dumb Animals can but admit to be a good job and the money well spent.

The westerly end of Brook Road has been finished in a workmanlike manner, from Blue Hill Avenue to Brush-hill Road.

A safe and good bridge has been made wider and finished on Robbins Street ; a concrete gutter has been put down on Canton Avenue, near Lewis Davenport's, to conduct the mountain water on its way to the ocean ; and quite an item has been expended for paving in the East, West and North Sections.

Also quite a job has been done at Fenno's Crossing, in East Milton, by widening and straightening.

The lighting street lamps has been done by the Selectmen, the Superintendent at Almshouse doing the lighting, and the cost under this arrangement is about $50.00 per month.

Owing to the difficulty of calculating accurately the cost of the extra work, the expenses on roads will exceed the appropriation. The detailed accounts will show the amount of supervision required of your Superintendent, which is constant through the season.

SAMUEL COOK.

East Section.

Paid Lewis & Godfrey, for boards and carting for snow fence on Granite ave.	$63.50
F. M. Severance, for building and furnishing part stock for above	37.02
David Byrnes, for 46 ds. labor on road, at $2	92.00

In the permanent improvement of the Cemetery, the following work has been accomplished :—

On the eastern boundary, nineteen rods of wall have been laid. In the valley, beyond the Tool House, the grade has been raised, diminishing, in some measure, the steep ascent of the hill. The avenue up the hill has been thoroughly rebuilt, the loam being removed to the dep'h of two feet, and the excavation filled with an underlaying of stone, covered with gravel. This, after a little time, will become a solid and substantial avenue. It is needful

that the remaining portion of this main avenue, which is now almost impassable in the spring, receive the same thorough repairs.

Two hundred and ten yards of concrete gutter have been laid on both avenues up the hill.

In various parts of the Cemetery, one hundred and sixty-nine ornamental trees have been set out, and twenty-six shrubs. Other work has been started to be carried out in the spring.

So much has been accomplished in addition to the care of the avenues and the general work.

During the season, fifteen lots have been taken by citizens, and an increasing interest has seemed to be awakened in the care and improvement of the Cemetery.

The Trustees avail themselves of this opportunity to acknowledge with gratitude the donation of nearly one hundred evergreen trees, comprising an equal number of Norway spruce and Scotch pines, from our fellow-citizen, Henry A. Whitney, Esq., and also several maple trees from John D. Bradlee, Esq. These gifts were rendered more valuable from the fact that many of the evergreen trees in the Cemetery had been killed in the winter of 1871, and so great was the scarcity that they could hardly be obtained for money.

In the wide tract of the Cemetery, there can be used, to much advantage, large numbers of evergreen and deciduous trees, shrubs, and hardy flowering plants; any of them will be received and acknowledged with gratitude by the Trustees.

The Trustees especially recommend that proprietors place plain and appropriate headstones to any unmarked graves; that there may not be within the Cemetery one grave nameless, neglected or forgotten.

In the case of other Cemeteries, much more power is given to the Trustees than is possible under our organization; but with the coöperation of citizens, ours may be made quite as satisfactory to proprietors and as creditable to the town, without the extravagant attractions of marble and flowers which sometimes fail to harmonize with the quiet repose and beauty accompanying well-kept turf and thrifty trees. Nothing is more attractive than the beautiful green of grass and trees, nothing is more appropriate to the place, nothing is more permanent and inexpensive.

Although the Trustees do not ask an increase of the appropriation for the ensuing year, it may be needful, before a long time, to consider the enlargement of the grounds, and also a somewhat costly improvement of the territory already owned, but as yet undeveloped.

Respectfully submitted,

JOHN TOLMAN,
A. K. TEELE,
O. W. PEABODY,
R. M. TODD,
S. A. BURT,
Trustees.

George Vose,
Treasurer.

The Public Library still continues to enjoy the favor of the people, and is believed to be doing much good in the community.

It has already been stated in the report of last year, that during the first year of the existence of the library about fifteen thousand books were taken out, an average of nearly fifty books

per day. The Trustees are unable to state the precise number taken out during the second year, which is now just ended, but it is considerably larger.

The Trustees have aimed to procure the fresh works as soon their merit could be ascertained ; they have also made it a special object to enrich the library with books of reference, and with such standard works in literature, science and the arts, as possess a permanent value.

Five hundred and eighty-six volumes have been added since the last report ; among which is that most valuable work of reference, the Encyclopædia Britannica. No books have been lost, and none have been injured beyond the wear attending constant use.

The Trustees have prepared a Bulletin of all books added since the original Catalogue was issued, and have caused the same to be distributed throughout the town.

The Library is renewedly commended to the citizens as a most important and efficient auxiliary in educating and elevating the mind and heart.

Respectfully submitted,

James M. Robbins,
For the Trustees.

" " Feb. 4, 1873,	17,029.08	
Decrease of Town Debt	$686.43	

The Auditors herewith submit the Thirty-Sixth Annual Report of the Receipts and Expenditures of the Town, for the year ending Feb. 4, 1873; to which are added, as usual, the Statistics of the Town, together with a List of the Taxes and Tax-payers for the year 1872.

The arrangement of the assets of the Town has been somewhat altered, to show the amount raised for the State and County Taxes, with the amount appropriated by the Town to meet current expenses, which we hope will meet with approval.

The amount of the Town Debt is also presented, showing a decrease of $686.43.

The expenses of the Poor and Highway Departments are to some extent blended, though to a much less extent than formerly, some articles returned as among the stock on hand of the Poor Department having been exclusively used by the Highway Department, to which they should properly be turned over.

The only labor performed by the Poor Department during the year, has been the lighting of the street lamps by the Superintendent, which has been credited, and the amount of stock and tools on hand, less than in 1872, charged under their proper heads.

The examination of the Almshouse shows that a lack of system has characterized the management therein, and the Auditors respectfully suggest that a first class man should be put in charge for the coming year.

The books and accounts of the Treasurer have been carefully examined, and we find them correct, with proper vouchers for moneys paid out. The accounts of the other officers having charge of Town finances have been examined and found correct, with proper vouchers.

EDWARD J. KENDALL,
GEORGE A. FLETCHER, } *Auditors.*

HIGHWAY DEPARTMENT.

REPORT OF SUPERINTENDENT.

The only change in the manner of working the roads this year from last, has been in employing larger gangs, their being but three gangs instead of five, which has proved much more economical.

There was a large expense on Milton Hill, which broke up by the frost in spring and had to be excavated and filled in with stone for not less than half a mile in all. There are other places on Randolph Avenue and Adams Street which will need the same treatment this spring, having been for some time dangerous, and always troublesome at the breaking up of frost.

The Dorchester Gas Co., when digging for their pipes on Randolph Avenue, agreed to a drain under the pipes, which was done by stone filling, and will greatly improve that locality. The hill on Granite Avenue, beyond Squantum South Crossing, had become too soft for heavy teaming, and was cut down, dressed heavily with stone chips, and the gravel used for the extension of Granite Place. Brook Road has been continued through to Blue Hill Avenue from Mattapan Street—completing that road. The cutting down the hill and grading the hollows on Blue Hill Avenue, north of Robbins Street, proved very expensive, owing to the large boulders uncovered, which had to be blasted. Davenport Hill, so called, has been graded and widened, and the culverts re-built. The bridge on Atherton Street near Mr. Morse's was again undermined by flood, and it was thought best to flag the brook with flat stone, which accounts for the quantity of stone used in that section.

The corner near Deacon Adams's on Highland Street, has been widened, and Granite Place opened through to meet the extension from Quincy. The widening of White Street has been done under the supervision of the Superintendent. The following statements show the amounts expended on the various sections.

West Section.

Paid 274 days labor, men	$546.12
25 days labor, boy, horse and cart	28.75
341 " " man, " " "	1,323.38
Repairing tools	19.30
Paving gutters	14.25
Oxen to plow, and boy	5.00
205 loads gravel, at 10 cts.	20.50

REPORT OF THE TREASURER,

On receiving from the Board of Commissioners of Dorchester and Milton the Documents and Funds pertaining to the Landing Places.

As the Ministerial Lands of the town of Milton have passed from the hands of the town forever, and as the old Landing Places may soon follow, it may be interesting to some of the present as well as the future inhabitants to know something of their origin, and how they first became the property of the town. The old Records say:

"At a meeting of the proprietors of the Common Lands of Dorchester that lieth between the divisions that are already laid out on the line that runneth from Dedham to the Top of the Blue Hills. They do freely give, sequester and set apart forever Four hundred Acres of Land, that is Two hundred Acres thereof to be improved from time to time for the use and Maintenance of the Ministry to the Inhabitants of Dorchester on the Northwest side of the River Neponset, and the other Two Hundred Acres to the Inhabitants of Dorchester that live on the Southeast side of said River Neponset for to be improved for the use of the Ministry there from time to time. And the donors do declare that the land above said shall not be given or in any way made over, alienated or sold, directly or indirectly, to any Minister or any other person or persons Whatsoever as to them, their heirs, Executors or Assigns, but shall remain and continue to be improved for the use above said.

"Voted by the Proprietors above said the 16th 11mo. 1659."

They also set apart sundry Landing Places upon tide waters to give facilities for the inhabitants that were to be, to get their ship timber to market before the lands were divided between the proprietors. Two of the landing places were located in the town of Milton; one on Neponset River near the bridge, and one on Gulliver's Creek; and tradition says they were used for the purposes for which they were set apart in the early days of the town. But after the ship timber ceased to be sent to England, these landing places became of but little use for the purpose for which they were established. The one at the village, near the Lower Bridge, upon becoming useless for the purpose for which it was intended, was used by the neighbors as a waste place to deposit rubbish, and for other purposes, that made it a nuisance in the midst of a village. Consequently the towns of Dorchester and Milton, in 1835, each chose a committee to petition the legislature for an act to place the landing places under some regulations. An act was obtained, giving those two towns the right each to choose three commissioners

jointly to take charge of the same and make improvements thereon, and to get the means to do the same from rents received from the use thereof. The two towns availed themselves of the privilege conferred by the act, and annually chose their commissioners from 1835 to 1873. The commissioners from time to time built a commodious wharf on the landing place, and some five hundred feet of substantial under-ground drain to take the water from the street on Milton Hill and carry it to the river, in addition to enlarging the area of the available land by walling up and filling in the flats. In the year 1873, the town petitioned by their committee to have the landing place, with the improvements thereon, sold, and the legislature granted their request by turning the property over to the town of Milton, together with the funds in the hands of the commissioners, subject to the leases then in force from the commissioners to individuals. After the passage of this act the commissioners transferred to the town of Milton six shares of the Blue Hill National Bank, and paid to the Treasurer $5.41 in money and three leases of land, one to Jabez Sumner, and one to George K. Gannett, by which they are to pay one hundred dollars each per year, and one to Moses C. Chapman, for which he is to pay twenty-five dollars per year. All these leases expire May 1, 1880.

The Treasurer has used, as will be seen by the report,

One semi-annual dividend from Blue Hill Bank, of . .	$24.00
" payment from Otis Godfrey, lessee of said Gannett, to Nov. 1, 1873, ...	50.00
" payment from G. W. Nickerson, lessee of said Sumner, same date	50.00
" payment from the Chapman lease, being a yearly payment due May 1, 1874	25.00

Making a yearly income from the Landing Place of $225, and an income from the Bank shares of from $50 to $60. Before going into the care of the commissioners, it had rented for about 75 cents per year.

CHARLES BRECK, *Treasurer.*

	$3,060.74

The permanent improvements in the Cemetery, during the year, have consisted, mainly, in the thorough rebuilding of the Avenue over the hill in the southern part; and in the opening of new avenues.

The Trustees have purchased the "French Tomb," in the rear of the "Old Cemetery," and by the removal of this, have begun the work of opening the avenue, laid down in the Plan, from the Old Cemetery to the New.

They have also secured the "Emerson Tomb," which may be used as a "Receiving Tomb," should it be decided to remove the present Receiving Tomb, and finish the east front entrance to correspond with the west.

In the early autumn, the Trustees learned that the land on the eastern boundary of the Cemetery, owned by C. M. S. Churchill, was about to be sold. As the sale of this land would preclude the possibility of a future enlargement of the Cemetery on that side, upon any reasonable terms; and would also greatly expose the Lots which extend up to the wall, with no screen or protection of trees and shrubs; immediate and decisive steps were taken

to secure the refusal of the land until the March meeting, when the importance of purchasing a part of this tract might be brought before the Town; but failing to secure it except by actual purchase, the Trustees considered the matter of sufficient importance to warrant the purchase of the Land. They have, therefore, in their private capacity, bought a piece of land four rods wide, extending the whole length of the Cemetery, at the rate of $350 per acre.

This land they now offer to the Town on the same terms.

They have also secured to the Town until April 1st, 1874, at the same rate, the refusal of an additional tract of the same land, eight rods or less in width, east of and adjoining the lot purchased, extending the whole length of the eastern boundary. Thus affording the Town the opportunity of providing for the necessities of future years, on terms probably more favorable than will be offered ever again.

To meet the expense on Lots of non-residents, which the proper care of the Cemetery renders necessary, and to allow such proprietors the opportunity of bearing a just proportion of the general expenses, which are met by the Town appropriation; at a meeting of the Trustees held Nov. 12, 1873, it was "Voted unanimously, that all non-residents be taxed three dollars per annum for the care of their Lots."

The Trustees take pleasure in acknowledging the donation of various ornamental trees by John D. Bradlee & Co.; also from J. Walter Bradlee, Esq., the presentation for each soldier's grave, of a plant of the Yucca Filementosa.

For the ensuing year, we recommend an appropriation of ($2000) two thousand dollars.

Respectfully submitted,

SAMUEL BABCOCK,
JOHN TOLMAN,
A. K. TEELE,
O. W. PEABODY,
R. M. TODD.

GEORGE VOSE,
Treasurer.

The Trustees of the Public Library beg leave to refer to the Report of their Treasurer, for the leading facts relating to their receipts and expenditures.

The number of books added during the year was four hundred and ninety-two.

There are ten hundred and thirty-nine names upon the list of persons qualified to take out books. Some of these probably represent parties who have left the town since their names were signed, but these are not many. The public interest in the Library increases, and it is more and more resorted to, by all classes of people. The Trustees are also happy to say that a good proportion of the books taken out are of the more solid and useful kind.

The whole number of books in the library is five thousand three hundred and thirty. In order to accommodate the natural growth of our collection from year to year, it will soon be an imperative necessity to enlarge our rooms or in some way to find more ample quarters; indeed, there is probably not room enough left for more than the books of another year. The Trustees commend this subject to the early attention of the town.

A bulletin or list of all the books added during the last year has been prepared and distributed throughout the town.

The hearty thanks of the citizens are due to several good friends of the library who have continued their benefactions. Mr. H. P. Kidder has given us a number of very valuable books; Mrs. J. M. Forbes has adorned the walls of the library room with a large and handsomely framed Engraving; the Rev. F. T. Washburn, whose death the Trustees, in common with the other citizens of the town, have so much occasion to regret, has also, together with other citizens, given valuable books. We respectfully commend the Library to the continued care of the citizens.

A. K. TEELE,
J. B. THAYER, } *Com. of the Trustees.*

727 transient persons furnished with food and a night's lodging: one of the number, Benjamin Ryde, during a fit of temporary insanity committed suicide by hanging.

HIGHWAY DEPARTMENT.

REPORT OF SUPERINTENDENT.

The plan of last year has been followed in repairing the town roads, working the men in three separate gangs under the supervision of the Superintendent, and bringing them together when necessary.

The road at the approach to Paul's Bridge having washed away badly at the sides, it was found necessary to make extensive repairs; and the corner in the direction of Canton being sharp and narrow, an offer of the abutters to give land for the purpose of widening and straightening was accepted.

A substantial bank-wall has been built (with stone furnished by Mr. & Mrs. Crehore, in consideration of repairs having been

made on the avenue leading to their house), a railing put upon it, the trees cared for by filling in around them with loam, and a much needed improvement completed.

Mattapan Bridge requiring repairs, it has been planked with four inch hemlock lumber, and this covered with clay and gravel.

The Pleasant Street improvements with the extra lamps in the East District, have caused the outlay to somewhat exceed the appropriation.

The following statistics will more fully show the amount laid out in each section.

West Section.

Paid 227½ days labor, men	$455.00	
210 days labor, men, horse and cart	814.25	
For 1627 loads gravel	162.70

Balance in hands of trustees (uncollected bills)	46.50
	$3,065.55

A large portion of the appropriation to the Cemetery, for the past year, has been expended in removing the Receiving Tomb, and the wall in the rear of the tombs on the eastern side; and in building the front wall along the land recently purchased. The work has been attended with no little labor and perplexity.

Before removing the granite wall from the rear of the tombs, it seemed necessary, or at least desirable, to obtain the written consent of the proprietors. This was found a difficult matter, as these ancient tombs have in some cases changed hands, and their ownership is doubtful, and not easily traced out.

With one exception, however, the Trustees have secured, from some one interested in each tomb, a written consent to the change that has been made.

The Trustees regard the work accomplished in the Cemetery during the season, with a good degree of satisfaction; believing the Town will appreciate the thorough and workman-like manner in which the front wall has been built, and also the fact that it has been done without a special appropriation.

With the approbation of the Town, it is proposed, during the coming season, to build a part of the side wall; to perfect the plan of the new territory, and gradually to bring it into use.

To accomplish this work the Trustees respectfully ask an appropriation of ($2,000.00) two thousand dollars, and the income of the Landing Places.

The Trustees tender their hearty thanks to their associate Mr. O. W. Peabody, for the donation of a "Lawn Mower"; and also to all citizens who have contributed shrubs, plants or flowers, during the season.

Respectfully submitted,

R. M. TODD,
SAMUEL BABCOCK,
JOHN TOLMAN,
A. K. TEELE,
O. W. PEABODY.

GEORGE VOSE,
Treasurer.

The Public Library has passed through another successful year. The interest seems in no degree to have abated, but rather to be on the increase from year to year. The readers are as numerous as ever; and the reading seems to be equally solid and select.

The Trustees have added to the Library, during the year, four hundred and twenty volumes. All the shelves are now filled, nor is there room for any further accommodations within the building.

To provide for the books of the present year, all volumes that could be spared were boxed and stored in another place. The vacant places are now filled, and the building is occupied to its utmost capacity.

It becomes a matter of necessity, therefore, to make provision for the increase of another year. To this the Trustees are giving careful consideration; and they hope at the March Meeting to be able to report the successful issue of their plans, or to recommend to the Town some definite course of action on the subject.

A bulletin of the books added during the year, is being prepared for public distribution.

The Trustees tender hearty thanks to those who have, from time to time, presented valuable books to the Library, and commend it anew to the interest and regard of all citizens.

A. K. TEELE,
For the Trustees.

The Trustees of Milton Cemetery herewith present their annual report, for the year ending Feb. 1, 1876.

They have paid into the treasury of the town for one lot sold, two hundred and eighteen dollars; and also for the perpetual care of two lots, four hundred and fifty dollars.

The Trustees have, for a long time, been embarrassed in their endeavors to give the Cemetery a uniform appearance of neatness and care, from want of authority to take possession of lots deserted by their proprietors. They have, therefore, prepared the form of a deed, to be given to all who shall hereafter become owners, by purchase, or by right of citizenship, authorizing the Town to enforce the care of all neglected lots, and to take possession of those deserted. They recommend the acceptance of this by the Town.

A due proportion of the appropriation of the year has been expended on the new purchase. A solid and substantial wall has been laid along a part of the eastern line, and the foundation has been prepared for continuing the work next year. A small portion of the appropriation has been reserved for moving stone for this purpose, over the low places, during the winter.

For the necessary care of the grounds now in use, and for the gradual improvement of the new part, the Trustees recommend an appropriation of the same amount as last year.

They renewedly commend to your continual regard these beautiful grounds, where rest the loved and mourned.

Respectfully submitted,

O. W. PEABODY,
R. M. TODD,
SAMUEL BABCOCK,
JOHN TOLMAN,
A. K. TEELE.

for Trustees.

GEORGE VOSE,
Treasurer.

The Trustees of the Public Library again congratulate the town on the continued success of their Library, and would refer to their Treasurer's report for a full account of the expenditures.

During the year, the addition to the Library Building, made necessary by the want of shelf-room, has been completed, and we now have ample room. Valuable donations of books have been received. Mr. H. P. Kidder has continued his yearly contribution, Dr. B. E. Cotting has sent us a volume of his valuable addresses, and others have generously given. The number of books added during the year was four hundred and fifty-two, and the bulletin of these will soon be distributed. A special effort was made this year to increase the number of books for the young, with the hope of interesting a larger number of our youngest readers, and your Trustees have to report a gratifying result.

A. L. HOLLINGSWORTH,
For the Trustees.

THE Auditors herewith submit the Thirty-ninth Town Report, being for the year ending February 1, 1876.

They have examined the books and vouchers of the Town Officers, and find them correct, and the condition of the Almshouse is entirely satisfactory.

The debt of the town has been discharged, and a balance remains in the treasury. As usual, the treasurer will need authority to raise money for current expenses in advance of collections.

In the collections of the town will be noticed the item of $710.37, received from the State for account of back pay of soldiers. This debt to the town has been recovered by the persistent efforts of the Selectmen through three years of representations and correspondence.

The Auditors have pleasure in expressing their appreciation of the clear and business-like manner in which the town accounts have been presented for their inspection by its officers, especially all those directly under the care of the chairman of the Selectmen.

Mr. Charles Breck contributes an interesting reference to the town accounts of a former year, to be found on last page.

1724 transient persons were furnished with food and a night's lodging at the Almshouse, and 1359 at the station house at Lower Mills Village.

HIGHWAY DEPARTMENT.

REPORT OF SUPERINTENDENT.

The expenditure on the highways has exceeded the appropriations, owing to the necessity of further outlays, to the amount of over $2,600.00, on the Williams and Central Avenues, on Construction Account.

With regard to the comparative expense of town teams and team hire, the superintendent finds that the cost of a team, including depreciation of horse, harness and cart, and keep during the useless days of winter, is under $1 per day, while hired teams are $1.62½ per day, leaving a clear saving of .62½ cts. per day on each team. Not over three teams, however, the number now owned, can be worked to this advantage. Beyond that number the need is irregular, and it proves better to hire.

North-East Section.

Paid for 338 days labor, men, horses and carts	. .	$1,098.84

	$2,715.19

The expenditures in the Cemetery during the year just past have been largely on the new portion. The grounds have been partly graded, and cleared of superfluous trees, and undergrowth; the boundary wall has been extended fifty-four rods; and a new plan of the whole Cemetery has been nearly perfected.

Care of Lots.—For the information of the citizens generally, the Trustees desire to make a definite statement in regard to the plan they have adopted in the care of the Cemetery. The Cemetery is mowed twice in the year; about the last of June, and again in September, when all Lots, not receiving annual care, are mowed and trimmed, without expense to proprietors who are citizens. Proprietors, who engage for the annual care of their Lots, are charged three or five dollars, according to the size and condition of Lots. Such Lots are clipped every fortnight during the growing season, and oftener if necessary. Perpetual Care Lots are clipped twelve or fifteen times during the season, and receive a top-dressing every fall. The Trustees furnish and apply a dressing of well-pulverized manure, allowing about three quarters of a foot per Lot, for one dollar and a half.

Citizens who wish to place their Lots under the care of the Cemetery will please give notice of the same; and those, whose Lots have hitherto been on the "annual care" list, but who desire the care to be discontinued for the next year, are requested to notify the Trustees early in the season, otherwise the Lots will be continued on the "annual care" list, and bills will be presented.

Prompted by a desire to increase and perpetuate the interest in the Cemetery, the Trustees have proposed to name the principal avenue of the new portion of the Cemetery, "Centennial Avenue," and in the opening spring of 1877, to plant the borders of the same with "centennial trees" to be presented by those interested in the Cemetery. These trees, marking the opening of a new century, and, in its advancing years, continuing their growth and spreading their leafy branches, may serve as living memorials of the donors, reposing beneath their shade.

The plan proposed is something as follows:

Every proprietor of a lot in the Cemetery is hereby invited to furnish a thrifty tree of good size and form, and of a kind to be decided upon, to be planted along these borders. The name of each donor will be affixed to the tree presented and planted by him, on a chart to be kept by the Cemetery for future years, or in some other way to perpetuate the matter. The time of planting will be extended until the whole border is occupied, even if it reaches beyond the present year. The trees thus planted are to receive special care from the donors, and from the Trustees of the Cemetery, as memorial trees.

The Trustees recommend, for the ensuing year, an appropriation of the same amount as last year.

Respectfully submitted,

A. K. TEELE,
O. W. PEABODY,
R. M. TODD,
S. BABCOCK,
J. TOLMAN.

GEORGE VOSE,
Treasurer.

The Trustees of the Public Library beg leave to refer to the report of their Treasurer, herewith presented, for the statement of annual receipts and expenditures.

About four hundred volumes have been added during the year, a catalogue of which is now ready for distribution. But few books have been lost or injured, beyond the natural wear of constant usage. The whole collection has been kept in an orderly, neat and systematic manner, by the faithful and efficient librarian.

The Trustees believe the Library is doing a great and good work throughout the whole Town, and they bespeak for it the continued interest and regard of all citizens.

They take this opportunity to proffer the hearty thanks of the Town to those citizens, and others, who have presented valuable books during the year. From Mr. H. P. Kidder has been received the "Encyclopædia of Art, Industry and Decoration," in four quarto volumes, edited by E. Reiber and C. Sauvageot, a most valuable work on architecture, mechanics and various decoration. Mr. E. G. Tucker, a former citizen of Milton, has presented the Library with a full set of "Reports of the Secretary of the Board of Agriculture" of Mass., and also the "Manual of the General Court of Mass.," complete from 1851. Mr. William R. Ware has sent the Library several valuable books. Many other citizens have shown their interest in the Library, and in the welfare of the Town, by the presentation of books. To all of whom, the Trustees offer their most hearty acknowledgments.

A. K. TEELE,
For the Trustees.

TOWN TREASURER'S REPORT.

The Auditors herewith submit the Fortieth Town Report, being for the year ending February 1, 1877.

They have examined the books and vouchers of the Town Officers and find them correct, and the condition of the Almshouse is satisfactory.

They have again to commend the excellent manner in which the accounts have been presented by the Town Officers.

EDWARD J. KENDALL,
EDWARD CUNNINGHAM, } *Auditors.*

Amount brought forward,	$2,563.85
Balance in hands of Trustees, Feb. 1, 1878 (Cash, $35.00—uncollected bills, $161.25) . .	196.25
	$2,760.10

The expenditure for the new Plan of the Cemetery, which appears in the above financial report, with the exception of fifty dollars paid last year, includes all the expense of the original survey, the arrangement of avenues, paths and lots, and the remodelling of the old Plan to connect the old portion of the Cemetery with the new, and harmonize the whole.

The Trustees, feeling the need of more than one plan, have taken advantage of the quite inexpensive process of heliotype printing, in order to furnish a plan to every proprietor. This new plan of the Cemetery can be obtained by application to any of the Trustees.

Centennial Avenue has been excavated, filled with stone, and partly gravelled from Centre Street as far as the tool house. Along each side of this avenue trees were planted in the early spring; and the Trustees issued a circular, inviting citizens to appropriate these as memorial trees. In response to the circular, all the trees were taken, and more were called for. Each of these trees is marked with a permanent zinc label bearing the name of the owner, and the number of the tree. This plan of memorial trees will be continued next spring; varied, perhaps, so as to allow variety in the trees, and the opportunity for the owner to plant and cultivate his own tree, should any wish to do this.

The Trustees recommend the opening of one or more avenues and paths, in the old part of the grounds, and a gradual improvement of the new portion, as the means afforded by the town may allow.

The work grows upon our hands. New lots are being taken from month to month. New and increasing interest is shown by citizens who have heretofore been specially interested in other cemeteries; attracted hither by the beauty and quiet of our home burial-place.

The Trustees recommend, for the ensuing year, an appropriation of the same amount as last year's.

Respectfully submitted,

J. WALTER BRADLEE,
A. K. TEELE,
O. W. PEABODY,
R. M. TODD,
S. BABCOCK.

GEORGE VOSE,
Treasurer.

Our Public Library has passed through another year of prosperity, sending into all our households its treasures of instruction and entertainment.

Through the liberality of the Town, the Library has received an increase of about four hundred volumes during the year. The books have been kept in good condition, with fresh covers, and all needful repairs; and the reading has been as general and select as in former years. A catalogue of the new books will soon be ready for distribution.

All the books belonging to the Town, the collections of many years, which, heretofore, have been almost inaccessible, have been removed to the Library, and are placed upon the shelves for convenient use.

An article in the warrant for the last Town Meeting, to see if the Town would appropriate a sum of money for the free delivery of books at East Milton, was by vote of the Town referred to the Trustees of the Public Library, to report thereon at a future meeting. The Trustees held a meeting to consider the matter, and gave a hearing on the subject

to the citizens of East Milton. After due deliberation, they hereby report, that, in their judgment, the free delivery of books at East Milton is, at the present time, impracticable.

The following valuable works have been presented to the Library by Mr. Henry P. Kidder: "Etchings from the National Gallery," 2 vols.; "Manners and Customs of ye Englyshe;" "Early New England Interiors," by Arthur Little; and "Examples of Contemporary Art," Edited by J. Comyns Carr.

Valuable books have also been received from Mr. O. W. Peabody, for all of which the Trustees return the most hearty thanks of the Town.

There stands upon our table a beautiful bronze statuette of the National Monument to the Forefathers at Plymouth; presented to the Library by Mr. Edward Cunningham. For this very fitting and valuable donation, the Trustees take this opportunity to proffer their sincere thanks.

A. K. TEELE, *for the Trustees.*

19. " " 4 "	3,000.00	
26. " " 4 "	3,000.00	
	$9,000.00	
Deduct bal. in hands of Collector and Treasurer	2,585.09	
Net Town Debt, Feb. 4, 1878	$6,414,91	

The Auditors herewith submit the Forty-first Annual Report of the Receipts and Expenditures of the Town, for the year ending Feb. 4, 1878.

The books and accounts of the several town officers have been examined and found correct, with proper vouchers for all moneys expended.

The improvements made at the Almshouse are very noticeable. The whole establishment has been painted, papered and whitewashed inside, giving it a very neat and attractive appearance. The management is evidently in good hands.

MARRIAGES.

The whole number of Marriages registered in Milton, for the year 1877, was 33, as follows :—

1877.

Jan. 22.—Aaron D. Vose and Elizabeth McKay, both of Milton.
Jan. 30.—John Donahoe and Margaret Fox, both of Milton.
Feb. 26.—Edward Cook and Ellen Grady, both of Milton.
Mar. 21.—Jacob G. Pierce, Jr., and Elizabeth W. Vose, both of Milton.
Mar. 26.—Charles Bolster and Isabella B. Hodgson, both of Milton.
April 2.—Walter T. Connell and Mary E. Finnegan, both of Milton.
May 3.—Asahel B. Kenney, of Boston, and Alma J. French, of Milton.
May 3.—Walter B. Randlett, of Milton, and Clara A. Williams, of Quincy.
May 5.—Joseph O. Osgood, of Cohasset, and S. Eva Littlefield, of Milton.
May 11.—Joseph Gilpatric, of Hyde Park, and Sarah E. Everson, of Milton.
May 12.—William Givens, of Quincy, and Isabella Mullen, of Milton.
May 15.—William R. Ware, of Milton, and Alice H. Cunningham, of Bolton.
June 11.—Benjamin C. Willis, of Boston, and Mary J. Crockett, of Milton.
July 5.—Michael McCarthy, of Milton, and Delia Mullany, of Boston.
July 9.—Henry L. Gibbs and Sarah Dever, both of Milton.
July 30.—William J. Gutro and Maria J. Devine, both of Milton.
Aug. 14.—Christopher Burns, of Milton, and Mary Dunn, of Boston.
Aug. 16.—Frank Ward and Jane Rankin, both of Milton.
Aug. 24.—Freeman Holbrook and Mary Dechamp, both of Milton.
Aug. 24.—James Hayes, of Boston, and Ann M. Coffee, of Milton.
Sept. 29.—Thomas Laffey and Kate Mahoney, both of Milton.
Oct. 4.—Silas F. Corbett and Augusta A. Hawkins, both of Woburn.
Oct. 10.—George M. Cooper and Isabella Torrance, both of Milton.
Oct. 15.—Josiah Babcock, of Milton, and Martha E. Aldrich, of Boston.
Oct. 17.—John H. Whalen, of Milton, and Maggie Donovan, of Boston.
Oct. 23.—Thomas McLaughlin, of Milton, and Margaret Finnerty, of Boston.
Oct. 30.—Charles A. Griggs, of Canton, and Emma F. Simmons, of Milton.
Oct. 31.—Samuel A. Morse and Jessie F. Godfrey, both of Milton.
Nov. 13.—William Wheeler, of Milton, and Martha Gillespie, of Malden.
Nov. 15.—Francis H. Chapman, of Milton, and Alice L. Stearns, of Newton.
Dec. 13.—Morris Driscoll, of Quincy, and Emma Loring, of Milton.
Dec. 22.—Frederick M. Hamlin and Fannie E. Emerson, both of Milton.
Dec. 28.—Henry J. Kahlmeyer and Mary E. Caning, both of Hyde Park.

Twenty-two persons have been brought from other towns, by permission, for interment in Milton, and twenty-seven persons have been removed from Milton for interment in other places.

TOWN SEAL.

To the Selectmen of Milton.

GENTLEMEN:

The undersigned, who were requested by you to prepare a Seal for the Town of Milton, have completed the work, and beg leave to present the following report:

The duty required of them seemed, at first, small; but in fixing upon a suitable device, and in establishing the same by historical facts, much care and research have been found necessary.

They have received valuable assistance from the Library of Harvard College, and from the Boston Public Library. They are also indebted, for judicious suggestions, and reliable information, to Edmund J. Baker, Esq., a gentleman versed, above others, in our early history.

The Design represents facts drawn from early times.

In the foreground is Neponset River, the original as well as present northern boundary of the town. On the river is represented a small vessel from which two of the people have just landed to traffic with the Indians whose wigwams appear on the lower part of the shield.

The first business of Milton was trading in furs with the Indians.

In 1619 William Trevour took possession of the Island, now known as Thompson's Island, for the undoubted purpose of traffic in furs. Seven years later, in 1626, David Thompson, the first recorded settler of Boston Harbor, "obtained a grant and patent for the quiet and peaceable possession" of this Island, henceforth known by his name, and established quite an extensive trade with the Neponset Indians, who were famous trappers.

The seat of the Neponset Indians was at the head of navigation on the Neponset River. At the falls, which they called Unquety Quissett, they obtained their fish; and the low lands along its tributaries were their trapping grounds. Unquety was their favored abode. From hence they made excursions down the river to sell their skins; to the "Massachusetts Fields," their planting ground, south of the river; and to Mount Hope to bury their dead. Their cornfields were found in all parts of our town.

The first visit of the "Pilgrim Fathers" to Milton was on the 21st of September, A.D. 1621. "Sept. 18, 1621, ten men left Plymouth, with the Indian Tisquantum as guide and interpreter, to visit the Massachusetts." They landed first, probably, at "Nantasket Head," and the next day sailed over, and landed at Squantum, so called from their interpreter. On the morning of the 21st they "marched in arms three miles into the country,

where corn had been newly gathered." This brought them, perhaps, to the locality called "Mount Hope," the burial place of their warriors, as proved by the graves, beads, and Indian utensils found there; beads taken from these graves being now in the possession of Mr. Edmund J. Baker; or among the open lands of East Milton, suited to the culture of corn; proceeding two miles farther, very likely to "Thacher's Plain," lying between Brook Road and Mattapan Street, where, tradition says, the Indians had corn fields, "they found the women with the corn in heaps, whither they had fled from fear." At first, they were afraid, but soon, the men joining them, "they were willing to entertain their guests and trade for their skins." The narrative continues, "having well spent the day, we returned to the shallop, the women accompanying us. We promised them to come again, and they to save their skins for us. Thus with a considerable quantity of beaver, and a good report of the place, wishing we had been seated there, we returned to our home."

Among the first exports of the Plymouth Colony were two hogsheads of beaver skins, by the "Fortune" which sailed from Plymouth Dec. 13, 1621.

In later years, Richard Collicut and John Holman, early citizens of Milton, were among the principal Indian traders.

On the Sinister or left of the shield, are represented implements of agriculture—the plough, scythe, and rake; also a sheaf of wheat, and a few stalks of corn—emblems of our agricultural town.

On the Dexter or right of the shield, appears a shallop on the stocks.

Nehemiah Bourn, the son of a shipbuilder of London, came here in the ship business. He owned a part of the land on Milton Hill, between Col. Israel Stoughton and William Hutch-

inson, running back to the marsh. Bray Wilkins was also an owner of land in this same locality, and interested in the ship business. He received a license from the General Court in 1638 to run a ferry-boat from a point of land between Granite and Neponset Bridges, called "the ridge," to the Public Landing at Davenport's Creek, for the accommodation of those who wished to take merchandise to Boston before roads were laid out. Stephen Kingsley, one of the "precinct inhabitants," and the first preacher in Milton, lived on the Nathan Babcock estate; he owned the Foy estate, and the whole tract of land from thence southeasterly to Gulliver's Creek. Anthony Gulliver married a daughter of Stephen Kingsley, and came into possession of a part of the Kingsley estate; and from him the Landing took its name. Anthony Gulliver and Stephen Kingsley also purchased, Feb. 26, 1656, of Richard Hutchinson and Edward Hutchinson, sons and heirs of Richard Hutchinson, of London, a large tract of land bounded northerly on Gulliver's Creek.—Suffolk Registry, Lib. 3, Fol. 5.

In 1640 Gulliver's landing was laid out, for the convenience of the inhabitants who were shipbuilders, and was the Port of the town. Gulliver's Creek, now but ten feet wide at the landing, was then a navigable stream where vessels of forty tons could be passed.

Governor Winthrop built the first vessel of about thirty tons, called the "Blessing of the Bay," at Medford, launched July 4, 1631. Soon after vessels of small size, called shallops, were built at Gulliver's Landing, and the business was continued there for many years. Among the early citizens engaged in this occupation are the following names:—William Salisbury, Anthony Newton, Walter Morey and Nicholas Ellen.

On the upper part of the shield, in the distance, appear the Blue Hills of Milton.

The Crest is an exact representation of the northwestern view of the ancient Church of Milton Abbey, in Dorsetshire, England. This requires a careful and minute explanation.

Milton Abbas, or Abbey Milton, is situated in Dorsetshire, six miles southwest from Blandford, and about ten miles northeast from Dorchester. It lies in a deep vale enclosed by very steep chalky hills on the north and south. Its first name was Middletown, from the fact of its location in the centre of the County. In process of time the name was contracted to Milton, which name it has borne for many centuries. The earliest mention made of it was in the reign of King Athelstan, who founded an Abbey here, and brought it into repute. This Abbey was founded in A.D. 938; immediately thereupon the town rose in importance, and, in the ancient time of "Abbatial grandure," was the central market of the County.

"In the year 1309, Sept. 2d, a terrible storm of lightning happened about eight o'clock in the evening, and the Church of Middleton, bell-tower and bells, were by the lightning burned down, and destroyed." It was rebuilt in 1310–11, and has remained to the present century in all its ancient grandeur.

Feb. 23, A.D. 1539, the 31st of Henry VIII., the King granted to John Tregonwell, Esq., for £1000 and resigning a pension of £10 per annum, the site of Milton Abbey.

In 1752 it was sold by the Tregonwell heirs to Joseph Damer, created Lord Milton in 1753, and Earl of Dorchester in 1792. In the time of the Earl of Dorchester, a large part of the ancient pile was demolished, but the Church remained unchanged.

Prior to the incorporation of our town, Milton Abbas was called simply Milton. This is inferred from the frequent mention of Milton disconnected with Abbas, and also from the following facts. In the east window of the Wolverton House

appears the Milton escutcheon, bearing the following inscription: "*Scutum Abbatis de Milton*," with a device of three baskets filled with bread. Among the tokens allowed to be struck by tradesmen in those days, we find one with this inscription:—on the one side—"George Reeve," with the Milton device of baskets filled with bread, and on the reverse, "Milton, 1667, his half-penny." Another has, on the adverse, "Bussey Miller," with Milton device; on the reverse, "of Milton Mercer."

In the year 1814, Hon. James M. Robbins, one of this committee, passed leisurely through the whole county of Dorsetshire. Riding from Dorchester towards Milton, and making inquiries of a fellow traveller respecting the country and inhabitants, his attention was directed to the mansion of Esquire Tucker, a member of Parliament, and a man of note in the county. He learned, moreover, that the Tucker family was a numerous and influential family in that section.

The proximity of these familiar towns, together with the mention of a family so common at home, sent his thoughts across the waters to the old Milton of Massachusetts, and suggested a clew to the origin of the name of our town.

Robert Tucker came to Weymouth, Mass., about the time of the incorporation of that town. He is supposed to have accompanied a party that came to New England about 1635, with the Rev. Mr. Hull, from the vicinity and town of Weymouth, Dorsetshire; and to the place before called Wassagusset, they gave the name of Weymouth. He held office in Weymouth for several years, and thence moved to Gloucester, where he was Town Recorder, and back again to Weymouth.

He came to Milton about 1662, and, the supposition is, was preceded by some of his family; as he purchased a large tract of land on "Brush Hill," in 1663, bounded westerly on land of James Tucker, supposed to be his oldest son. He was the first

Town Recorder; was select-man for several years; and represented the town at the General Court for the years 1680 and '81.

The argument is, that Robert Tucker, or if not he, others who came from the same locality, and perhaps through his influence, followed the very common custom of naming the towns in the new world, from those with which they were familiar, and from their homes in the old world.

Milton of Dorset, at the time they left England, retained something of its ancient importance and renown.

Our fathers had already appropriated Dorchester, Weymouth and other towns of Old England as names for these new towns; it is natural to conclude that they chose the name of MILTON for this town from the famed old Milton of Dorsetshire.

Your committee believe this to be the origin of the name of this town. They have, therefore, adopted as a Crest of the shield, a view of the ancient Church of Milton Abbey.

The motto, which appears on the Scroll, is selected from the sixth line of the First Eclogue of Virgil,

"DEUS NOBIS HÆC OTIA FECIT."

"*God has given us this tranquillity—or these pleasant things:*"

which was thought to be appropriate to our beautiful town.

All of which is respectfully submitted.

JAMES M. ROBBINS,
CHARLES BRECK,
ALBERT K. TEELE.

	$2,857.24

The work in the Cemetery has progressed as usual during the season.

Pine Avenue and Lily Path have been made; thus opening the area of about forty very pleasant lots.

Work has been done on the upper portion of Centennial Avenue, and also on Holly and Heath Paths for the purpose of reaching the plat for single graves. This work should be continued the coming year, that the lot for single graves may be made ready for occupancy.

The tomb which has been used for several years as a Receiving Tomb, is wholly unfit for the purposes of the town. Designed for a family tomb, it is far too narrow and contracted for the present use. From the experience of the past year, the Trustees are convinced of the necessity of a different arrangement; and they recommend that a Receiving Tomb be constructed during the next season.

The Trustees desire to express their thanks to John D. Bradlee & Co. for the donation of many trees, shrubs and plants, which appear on the ornamental lot near the tool-house.

For the general care and improvement of the Cemetery, the Trustees recommend the usual appropriation of two thousand dollars.

Respectfully submitted,

SAMUEL BABCOCK,
J. WALTER BRADLEE,
A. K. TEELE,
O. W. PEABODY,
R. M. TODD.

Examined and approved, GEORGE VOSE, *Treasurer.*
GEO. K. GANNETT,
A. K. TEELE, *Auditors for Trustees.*

The Milton Public Library now contains seven thousand nine hundred and thirty-six volumes.

Three hundred and seventy-five books have been added during the year. A Bulletin of the new books is being prepared, and will soon be distributed through the Town.

We learn from the Librarian that the weekly average of books taken from the Library is, for the Summer months, about three hundred, and for the Fall and Winter months is much larger. The delivery on Saturday is generally about one hundred books.

It also appears, from the record, that the demand for solid reading, during the past year, has greatly exceeded that of any previous year. Works on history, especially, have been called for. True stories of the early adventurers have partially superseded the call for exciting fiction. This is all in the right direction.

Our Public Library is renewedly commended to the citizens as one of our best educators.

A. K. TEELE,
For the Trustees.

MISCELLANEOUS TOWN EXPENSES.

Twenty-seven persons have been brought from other towns, by permission, for interment in Milton, and sixteen persons have been removed from Milton for interment elsewhere.

NOTE.—Owing to the neglect of the undertaker to make a return, the following death was omitted from the Auditors' Report of 1878:—Died March 17, 1877, Ada G. B. Zeigler; Age, 43 years; Place of Birth, Milton; Disease, cancer.

TO THE CITIZENS OF MILTON.

At the meeting held March 4, 1878, the Town passed the following vote :—

Voted,—That the sum of Thirty-Five Thousand Dollars be appropriated for the erecting of a Town Hall, and that a Committee of Nine be appointed to carry out the above purpose (not restricted as to size of building or materials used).

Voted,—That the Town authorize a loan by which the Treasurer can borrow the above amount, to be paid in four annual instalments, one fourth the amount in 1878, and so on until the whole is paid; said vote for a loan passed by a two-thirds vote.

Committee appointed :—

William H. Forbes,	Samuel Gannett,
George Vose,	J. H. Wolcott,
Edward L. Pierce,	Albert K. Teele,
Samuel Babcock,	Charles L. Copeland,

Horace E. Ware.

Voted,—That the Committee have power to fill any vacancies that may occur.

Mr. Charles L. Copeland being unable to serve, resigned, and Mr. James M. Robbins was elected in his place.

The Committee at once entered upon the duty assigned to them, and after discussion and consultation with other citizens upon the requirements of the town, decided the following points :—

First. That the building should be of brick and stone.

Second. That the main Hall should have a capacity to seat seven hundred, including gallery.

Third. That besides the main Hall, there were needed a smaller hall for collations, caucuses, or other purposes; a room for Town officers, with fire-proof safe for records and papers adjoining; two cloak-rooms; a room where cooking could be done, and, if possible, one for school and other committee meetings.

Some twelve architects were then invited to submit preliminary designs to the Committee. Eight accepted this proposal, and the Committee desire once more to thank these gentlemen for the pains they took in preparing their sketches, which contained so much that was excellent that the task of selection was rendered somewhat difficult.

Mr. Nathaniel J. Bradlee was employed as consulting architect, and has given material aid both in the examination and discussion of the plans offered, and later upon various questions of practical importance.

The plans of Messrs. H. W. Hartwell and Geo. T. Tilden were accepted and all details agreed upon, and the working-plans in readiness for examination by builders about the 1st of May. These were submitted to about ten builders in competition, and the contracts were awarded as follows ;—

The mason's work to	W. C. Poland & Sons, of Boston.
The carpenter's work to . . .	Creesy & Noyes, " "
The roofing to	J. Farquhar's Sons " "
The copper work to	L. Cushing & Son, of Waltham.

The two last named contracts were afterwards included in that with Creesy & Noyes, as well as all glazing and painting except the decoration of the two Halls and the front entrance, which was executed by W. J. McPherson, of Boston.

A sub-committee of four, consisting of Rev. A. K. Teele, Messrs. George Vose, Samuel Babcock and Samuel Gannett, was appointed to take charge of grading and roadways, and to watch the progress of the work upon the building.

The site having been fixed, the cellar was begun on the 3rd of June.

The Committee on grading, after examining the ground with care, reluctantly decided that the trees in front of the building would have to be taken away to admit of the grading and arrangement of roadway required, and the changes in the road front considered necessary.

This was accordingly done, and the ground evenly graded to the sidewalk, while elm and maple trees have been planted between the Hall and the road in a manner to relieve the building from the somewhat too exposed appearance it would otherwise present.

These arrangements will, it is hoped, leave the grounds adjacent to the Hall in a better permanent condition than any attempt to retain the hillock and trees on the south side could have accomplished.

The stone under the south east corner of the tower was laid

about the 10th of July, and in it, sealed in a copper box, were placed coins of 1878, the latest Town Report, current newspapers, and pamphlets containing various facts and statistics regarding Milton public affairs.

The work upon the building has gone forward without any drawback or delay, and on the 1st of February the contractors reported that the work would be finished in season to open the Hall on the 17th of the month.

The following points regarding the accommodations of the Town House will be of interest to the citizens.

The large Hall will seat 500 persons on the floor and 200 in the gallery. The floor measures 48 feet by 60.

The small Hall will seat 150, and measures 21 feet by 40.

At the south end is a smaller room 12½ feet by 17, which opens into the other by folding doors, so that the two can be thrown into one upon occasion.

Upon each side of the front door is a cloak room, and to the right and left are stairways to the gallery.

The stage is 27 feet wide, and 22 in depth when the doors are thrown back, or 10 feet when they are closed. These doors are arranged to be used as a partition behind the speaker's desk, or to swing back on rollers to any desired angle.

On the ground floor are a town officers' room, 16.2 feet by 20, with a fire-proof safe adjoining; and another room suitable for the school committee or other small meetings. Both of these rooms have open fire-places as well as furnace heat, and between the two is the passage-way, 7½ feet in width, to the west entrance and the covered driveway.

There is also a room at the north end arranged for kitchen purposes, to which water is brought from a cistern placed outside to the north.

Under the stage are two rooms which can be used for dressing or retiring rooms, for concerts or theatrical purposes, if desired.

The building is heated by four of Walker's furnaces—one brick, and three portable. This was considered the best plan for heating a house of this size, and should be an economical method, as the amount of heat supplied can be more easily restricted to the wants of the occasion than with fewer and larger furnaces. The certainty of heating any part of the building as required, with moderate fires, is also greater, as all very long air pipes are avoided. All the furnaces are supplied with automatic regulators.

The cellar is cemented throughout, and an air space has been left between the cement and the ground floor on the west side.

Upon the completion of all the principal contracts, it was

found that under the appropriation of $35,000 enough would be left, after paying for the building proper, to cover certain other expenditures which were necessary or desirable, and which could be made to much greater advantage while the work was in progress than afterwards. The items are:

1st,—The grading and roadways already referred to.

2nd,—Apparatus for lighting the building, for which, after looking into the questions of cost, safety and convenience, the committee decided upon Drake's improved automatic gas machine. The first cost of this arrangement is greater than would be required for kerosene oil, but for many reasons the gasoline is much to be preferred. The tank containing the gasoline is placed 50 feet from the wall on the west side.

3d,—Gas fixtures. These would properly come in with such furniture as the Town might wish to provide, but the committee preferred to bring them within the appropriation if possible. The fixtures are of solid brass, lacquered.

4th,—A marble tablet, suitable for the purpose of a memorial to our soldiers who died during the war. This has been placed at the south entrance, and left without inscription, in order that the Town may decide in what manner it shall be used.

For crowded occasions the partition under a part of the window, between the two Halls, has been made to drop, giving access to portable steps: these can be taken apart, and placed under the stage.

The cost is as follows:—

Building proper.—Mason's Contract		$13,010.00	
Changes and extras		67.82	
			$13,077.82
Carpenter's Contract		14,709.00	
Changes and extras		215.56	
			14,924.56
Painting two Halls and Vestibule			550.00
Architects			1,500.00
Total . .			$30,052.38
Grading, Roadways, Trees, etc.			2,165.35
Memorial Tablet			474.00
Furnaces with fixtures			808.78
Gas Machine		$750.00	
Fixtures		488.00	
			1,238.00
Amount carried forward,			$34,738.51

Amount brought forward,		$34,738.51
Sundries.—Cistern	84.00	
Plumbing	41.58	
Pit for Gas Machine	95.00	
		220.58
		$34,959.09

In delivering the keys to the Selectmen, the Building Committee desire to say, that in their judgment the architects in their designs and supervision, and the builders in the execution of the work, have done the Town excellent service. Great pains have been taken to devise and carry into effect methods for accomplishing what the Committee desired, and they consider that the work done is as satisfactory in character, and as carefully carried out in matters of finish, as the Town could have asked.

The Committee believe that the new Town Hall is suitable and convenient for the purposes of our people, and ample for their needs for many years to come, and they hope the result of their work may be found satisfactory to the Town.

Respectfully submitted,

WILLIAM H. FORBES, SAMUEL GANNETT,
GEORGE VOSE, J. HUNTINGTON WOLCOTT,
EDWARD L. PIERCE, ALBERT K. TEELE,
SAMUEL BABCOCK, JAMES M. ROBBINS,
HORACE E. WARE.

SCHOOL COMMITTEE.

THE SCHOOL COMMITTEE have to report:

1. Signs of improvement in the schools in general, full of good promise. The Committee hope for a more marked change for the better in the coming year, as the new force brought into action gets more thoroughly settled to its work.

2. An attempt, under the authorization of the Town at its town meeting last March, to provide thorough supervision for the schools, by the appointment of a Superintendent. Appointed during the summer, he entered on his duties at the beginning of the last fall term. Although the result of this appointment did not prove to be such as the Committee hoped for, and led to an early dissolution of the connection between him and them, it has not shaken their conviction of the desirableness and value of special and efficient superintendence. Such superintendence can hardly be expected from a body of men whose time, like that of most of the present members of the Committee, is abundantly claimed by their respective occupations. Differing as they must in views, and able to give but irregular and varying attention to the schools, they cannot quite bring into the schools that unity, compactness and concentration, that direction to common ends, and that mutual helpfulness among teachers and pupils which shall secure the best results, and bring to pass a common spirit, a friendly rivalry, and a generally recognized and advancing standard of judgment, comparison and attainment. One man, thoroughly understanding his work and heartily devoted to it, can point out the defects and meet the needs of both teachers and pupils, as no body of untrained—however deeply interested—amateurs can. He can bring teachers and schools into harmonious and intelligent relations to each other. He can aid and guide the consultations of teachers, and most effectively help to carry out the best suggestions of the Committee. He can be as an eye, everywhere present and everywhere watchful, to discern

needs and faults, excellences and gains, and to see that, while the latter are utilized to the fullest extent possible, the former are reduced to the lowest terms. He can possess himself of the suggestions and discoveries arrived at in the experience of the world at large, and bring them to bear on the life of the schools within his reach. Finally, by the influence of one controlling mind, he can bring unity and system into the otherwise scattered effort of all the schools. The Committee, acted on by considerations such as these, recommend to the Town farther and more thorough trial of the policy of superintendence. They are not blind to the dangers and mischiefs to which that policy is exposed. These, however, will disappear, once the right man is found to do the Superintendent's work.

In this connection the Committee invite the Town to consider the expediency of uniting with one or more of the neighboring towns to form a superintendence district. This, while lowering the money cost, would enlarge the scope of the superintendent's duty and efficiency.

3. The addition to the subjects of instruction in the schools of the study of Music. The Committee gladly bear witness to the good effect, under the genial influence of the teacher selected, of its introduction into the schools.

4. In their desire to bring the schools into an organic unity, in which the life of each shall best contribute to the good of all, the Committee have taken preliminary steps toward placing the High School in a position to fitly crown the school system of the Town. They venture to hope that they have secured a teaching staff whose quality shall guarantee excellent instruction and influence, shall make the High School attractive to all lovers of study, and shall encourage the teachers of the other schools in their best efforts by the consciousness that these shall not fail of recognition nor run any risk of going to waste. They hope, also, that the changes in the teaching force of the Grammar and Primary Schools will more and more prove to be morally as well as intellectually an elevation of those schools.

5. Need of additional accommodation for the school of the Pleasant Street district. Both in the capacity of the present schoolhouse and in the limitations and surroundings of its playground, this school is far too contracted for the healthful performance of its work. The Committee recommend the purchase of a new and larger lot of land, and the building of a schoolhouse adapted to the present and prospective wants of this excellent school.

The good results attending the introduction of additional teachers into the Pleasant St. and North Primaries, suggest the

importance of adding to the teaching force of some of the other Primaries, where the large number of classes unduly limits the amount of instruction and the rate of progress possible for each pupil.

6. The gift of a choice collection of useful and interesting books, carefully selected with a view to the wholesome needs and the capacities of the children, to every school in the Town, by a young lady of Milton, who will not allow the public mention of her name.

Also a handsome present of engravings to the West School, by Mrs. J. Huntington Wolcott.

Also a course of instruction in Sewing to the children of the West School, through the wise thoughtfulness of Mrs. Hemenway.

These admirable services need only to be mentioned to cause a feeling of grateful respect. Would that the example they set might be amply followed! Our schools can hardly be too well furnished with appliances, such as wholesome books, pictures and toys, fitted to cultivate, refine and elevate the mind and taste of all who attend them.

7. A very serious need of a wise consideration, on the part of parents and the public, of their personal duty to the schools and the teachers. From some of the schools the number of absences has been needlessly large. It is of great moment to not only the efficiency of the teachers, but the life of the schools and the progress of every pupil, that the absences and tardinesses should be reduced to the lowest possible amount. For, each one of them does harm to the whole school. It discourages the teacher and prevents the best doing of his work. He cannot do his best work if constantly reminded by the carelessness of parents, that they think lightly of his work. At the best, his work is hard. It is very poorly paid. He needs every encouragement that public respect and sympathy can give. He ought at least to be vigorously sustained in his every effort for the advancement of his pupils. One pupil kept needlessly away demoralizes the whole school. He keeps back his whole class. He himself is injured and demoralized. Little enough can the school do for him at the best. Forty weeks yield but two hundred school days in a year—not many more, counting in occasional holidays, than half the days of the year—and of these days not one quarter of the hours, indeed not one half of that quarter, can really be devoted to each child. If so little, is it fair to the child to rob him, through the carelessness or ill temper of others, or through prejudice against a teacher, of even the smallest portion of that little?

In conclusion, your Committee earnestly bespeak that careful and intelligent interest in the schools on the part of parents and the public, which shall secure the prompt and steady attendance of the pupils and frequent and helpful visits from parents and friends. This will encourage the teachers to their best effort, strengthen them in their work, and give every school, in all its parts, the sense of being under the continued care of a watchful and interested community.

All of which is respectfully submitted.

Per order of the Committee,

FRED'K FROTHINGHAM,
Chairman.

SCHOOL STATISTICS FOR 1878–9.

School.	Whole No. Registered.		Average Attendance.		Per cent. of Attendance.		Number over 15 yrs.		Paid for Salaries.

Walter Holmes,	Susie Sumner,	Emma Sloan.
Willie Bronsdon,	John Sangster,	

Not absent or tardy for a term.

*Bertie Stahl,	*Ansel Stahl,	**George Russell.

NOTE.—One star before a name indicates one mark on the Register; two stars indicate two marks.

FIRE DEPARTMENT.

To the Honorable Board of Selectmen of the Town of Milton:

GENTLEMEN:—In accordance with your request, we herewith submit a brief report of the condition of the Fire Department.

The department is under the control of a Chief and four Assistant Engineers, viz.: —

WILLIAM S. LEAVITT, *Chief.*

W. B. RANDLETT, *Clerk,*	JOHN H. BURT,
R. L. CHAPMAN,	JOHN B. BADGER.

The rolling stock of the department consists of one Hand Engine, one Hook and Ladder Truck, located at East Milton, and one Hose Carriage at Lower Mills, all of which are in good repair.

The department is supplied with 1,500 feet of Hose, 300 of which is linen (good); 250 feet cotton (good); 300 feet of leather (good); 400 feet of leather (fair); and 250 feet old leather (not reliable). More Hose should be purchased this year, at least 300 feet for the use of Ninety's Hose Company.

In addition to Hooks, Ladders, Buckets, etc., the Ladder Truck is supplied with seven Johnson pumps, with which the Company have rendered excellent service.

The buildings of the department are Hose House at Lower Mills, and Engine House at East Milton, which have been repaired the past season and are now in good order.

Two Reservoirs have been constructed the past year,—one at the corner of Granite Avenue and Mechanic street, and another at the corner of Granite Avenue and Adams street, and we are of the opinion that two more are actually needed,—one on Granite Place, near the residence of Mr. Bracket, and one near the Town Hall.

We would recommend the appropriation of $1,500 for the current expenses of the ensuing year. We would also recommend the purchase of a small Babcock Fire Extinguisher, to be kept in the Town Hall for the protection of said building.

The number of men who are now in service is 64, who are attached to the following companies, viz.:—Hydrant Engine Co., No. 1, 41; Granite Hook and Ladder Co., No. 1, 19; and Ninety Hose Co., 4.

The department has been called out by an alarm of fire nine times since May 1st, two of which alarms were for brush fires, two for fires in East Milton (at which both branches of the department rendered most excellent service), and five in the neighboring villages.

The fires occurred in the following order:—Sept. 24, barn and shed of James Crawford, on Sheldon street; loss, $1,200; insured $800; incendiary. Dec. 12, barn of Isaac B. Loud, on Pierce street, totally destroyed; loss $1,500; insured $900; cause of fire unknown. In addition to the above, two fires have occurred at which no alarm was given,—one in the house occupied by George Mitchell, on High street, accidental, and one in September which entirely destroyed the house, barn and out-buildings on Eustice Place; incendiary.

All of which is most respectfully submitted.

Per order of the Board of Engineers,

WILLIAM S. LEAVITT, Chief Engineer.

W. B. Randlett, *Clerk.*

TAXES

*Terms expire March, 1880.

SELECTMENS' REPORT.

THE Selectmen of Milton, in presenting to the town the following statement of the expenditures for the financial year ending January 31, 1880, would state that we have endeavored to avoid any outlay in excess of the appropriation which has come under our control; and, as will appear, have in the main been successful.

SCHOOLS.

The management of the Schools and school buildings is wholly in charge of the School Committee, whose report will be found elsewhere.

HIGHWAYS.

In the expenditures for roads we have tried to improve as well as to keep them in fair condition; have built new sidewalks, and many culverts, believing that the wants of the children and others who are obliged to walk, should receive some attention. A section of Mattapan street has been filled with stone, and the grade raised about eighteen inches, making a good road and a permanent improvement. Several sections of our roads should receive like treatment.

BRIDGES.

Having been notified by the Engineer of Boston that they were about to put all the bridges connecting Milton and the city in thorough repair, we joined with them, and paid Milton's share.

STREET LAMPS.

We have about one hundred and ten street lamps upon our streets, erected by private subscription, and lighted by naptha and kerosene oil at the expense of the town. The two gas lamps at the village were substituted with kerosene, as the cost was many times that of oil.

POLICE.

Frequent complaints are made in regard to the inefficiency of the police arrangements.

We have three constables at Milton Village, two at East Milton, and four in other sections of the town, together with three specials appointed upon petition of the citizens, and we have employed them at intervals and on special occasions, as their services were needed, dispensing with the regular night watch at East Milton and Milton Village.

RESERVOIRS.

The two reservoirs which the town voted to build have been constructed, the one at East Milton on Granite place, containing about twenty-three thousand gallons; the other near Town Hall, containing about forty thousand gallons, giving ample supply for those sections of the town.

TOWN HALL LOT.

The old Town Hall has been moved to the rear of the lot, and a fine cellar placed under it, furnishing a good building that the town can use should occasion demand. Many hundred loads of dirt were piled upon this lot in building the new Town Hall, which we have had removed, the division wall between estate of G. S. Cushing, Esq., banked, and the whole lot graded.

LAND DAMAGE.

Your Board found pending several old claims for damage, and believing the town had no desire to benefit the public at the expense of private individuals, the matter was left to referees and settled.

PRESENTATION.

It affords us pleasure to announce the presentation to the town of a clock, which has been placed on the east side of the Hall, by our esteemed fellow-citizen, Col. H. S. Russell.

J. WALTER BRADLEE,
JOHN H. BURT,
E. B. ANDREWS,
Selectmen of Milton.

REPORT OF TRUSTEES OF CEMETERY.

The Receiving Tomb is completed and ready for use.

In considering plans and proposals, the Trustees became convinced that a Tomb suited to the wants of the Town, for the present and future, could not be built for the sum appropriated by the Town for this purpose. It was decided, therefore, to build a suitable tomb and meet the expenditure, above the appropriation, out of the regular Cemetery appropriation.

This has been done. A Receiving Tomb which can hardly fail to meet the approval and the wants of the Town, has been completed and paid for, with the exception of $185.00, which it is proposed to pay out of the next Cemetery Appropriation; a part of this balance being for extra work, not included in the contract.

The contract for building the Tomb was given to O. T. Rogers & Co., the lowest bidder, for the sum of $2,188.00; and the Trustees believe the work has been done in a thorough and workman-like manner.

In opening the Tomb for use, suitable regulations have been adopted, as follows:—

As the object of the Receiving Tomb is simply for the safe keeping of the remains of those who pass away until the proper opportunity for interment arrives, the Trustees have adopted the following

REGULATIONS.

1st. Proprietors of lots in Milton Cemetery, and all citizens of Milton, are entitled to the free use of the Receiving Tomb, from December 1st to May 1st.

2d. For use of Receiving Tomb by non-residents, except proprietors of lots, from December 1st to May 1st, or for any time between these dates, ten dollars for each Catacomb, to be paid at the time of admittance.

3d. For continued use of Receiving Tomb by proprietors o lots, citizens of Milton, and non-residents, after May 1st, two dollars per month for each Catacomb.

4th. A reasonable charge will be made for opening the Tomb. and attendance on funerals.

The general work of the Cemetery has been attended to, as usual, during the year.

It is proposed this season to open new paths and avenues, and to do some work in preparation for one of the ornamental ponds that adorn the plan of our Cemetery.

The J. D. Bradlee ornamental plat, opposite the Receiving Tomb, has been improved during the season by the addition of many new shrubs and plants, for which the Trustees desire to express thanks.

The Trustees recommend the usual appropriation of $2,000.00 for the ensuing year.

Respectfully submitted,

S. A. BURT,
SAMUEL BABCOCK,
J. WALTER BRADLEE,
A. K. TEELE
O. W. PEABODY.

REPORT OF TRUSTEES OF PUBLIC LIBRARY.

Our Library now numbers eight thousand, three hundred and thirty-six volumes.

Four hundred books have been added within the year, among which are several illustrated works of much value, viz.: Illustrated History of Venice, by Charles Yriarte; Sheldon's American Painters; Famous Parks and Gardens of the World; Described and Illustrated Life of Gilbert Stuart, by Geo. C. Mason, etc.

Two books have been lost. One was taken from a boy on his way from the Library, by a tramp. The other disappeared in the following manner: A young man, giving the name of William Brown, and falsely representing himself as a resident of Milton, called for books at the Library on several occasions, and was permitted at last to draw "Drake's Illustrated History of Boston," a valuable work, which he failed to return. We have heard of him as patronizing other Public Libraries in the same manner.

The Library has been used by the citizens in all parts of the Town as generally as heretofore, with an increasing call for books of a high order.

The character of the books drawn from the Library intimates a marked improvement in the general reading.

The books are in good condition, neatly kept, and for the most part, carefully used.

A. K. TEELE,
For the Trustees.

ENGINEER'S REPORT.

MILTON, Feb. 10th, 1880.

To the Honorable Board of Selectmen:—

GENTLEMEN:—The Board of Engineers beg leave to offer a brief report of the condition of the Fire Department for the year ending January 31st, 1880.

The Department is under the control of a Chief and four Assistant Engineers.

The number of men now attached to the different companies are as follows, viz.: Hydrant Engine Co., No. 1, James F. Lord, Foreman, 43 men. Granite Hook and Ladder Co., No. 1, Oren F. Bates, Foreman, 23 men. Ninety Hose Co., 5 men. Whole number in service, 71 men.

The rolling stock, hose and building of the Department remain substantially the same as reported last year, and are in good condition.

Two reservoirs have been built the past year; one on Granite place, East Milton, and one near the Town Hall. These, with all others, three in number, are in good condition.

We would recommend an appropriation of $1,500 for the current expenses for the ensuing year; also renew our recommendation of last year, in regard to the purchase of more hose, for the use of Ninety's Hose Company, as in case of a large fire at the Lower Mills the supply now on hand would be entirely inadequate. Would also recommend the purchase of an alarm bell, to be placed on Hydrant Engine House, as the one now in use is too small for that purpose.

It has been our aim to conduct the affairs of the Department with strict economy, and in this we have been aided by almost the entire disappearance of the "firebug" from our town. But one fire has occurred the past year, which was a building on Mechanic street, East Milton, belonging to the estate of Patrick McKay, and occupied by W. W. Merrill, as a wheelwright shop. Loss on building, $400; stock and tools, $200. Damage to adjoining building, $120. No insurance. Cause of fiire, incendiary.

Respectfully submitted,

Per order of Engineers,

WM. S. LEAVITT, *Chief Engineer.*
W. B. RANDLETT, *Clerk.*

The Auditor submits to the town the forty-third annual report of its affairs for the year ending February 2, 1880.

The books, accounts and vouchers have been examined and compared, and found correct.

The Almshouse was found in a satisfactory condition.

It is recommended that the town authorize its Treasurer to borrow money in anticipation of taxes, subject to the approval of the Selectmen.

JOHN VOSE,
Auditor.

ADDRESS

OF

EDWARD L. PIERCE,

AT THE

DEDICATION OF THE TOWN HOUSE,

FEBRUARY 17, 1879.

As citizens of Milton we meet this evening to recognize the completion of our new town house. This is one of those municipal events occurring but rarely in the life of a civic community which it is fitting to commemorate with simple and appropriate ceremonies. The interest which the citizen takes in his town, his desire to serve it, his pride in its history, his regard for those who are identified with him in neighborhood, lie at the foundation of the patriotism which, in its higher and broader sphere, comprehends his State and his Country.

The New England town has been the study of our thoughtful statesmen, and it has attracted the attention of foreign observers. It is the opposite of the system of centralization, which, refusing the people of each district or subdivision of the State the direction of what immediately concerns them, lodges all power in a central administration. It is thus broadly distinguished from the municipal institutions of France, which are subject to the central will at Paris, whether imperial or republican. It is also, within its defined limits, the simplest and purest democracy. In the government of cities or dense populations it becomes necessary to entrust to some board or council the direction of affairs, leaving only to the people the election of its members; but, without such necessity, this same method is, outside of New England, generally applied to towns. With us, however, the power over domestic concerns remains at its source without surrender or delegation.

The town, to be sure, has none of the attributes of sovereignty; it cannot declare war, make treaties, enact laws or establish courts; but it deals with those primary, ever-present interests which lie at our hearthstones, which make our daily life.

The citizens in town meeting choose a moderator, who directs their deliberations, and enforces order. They elect numerous magistrates and officers, the administrators of their revenues, the conservators of order, the custodians of the public property, the managers of various public concerns. They deliberate on a series of propositions duly advertised, with the right of each citizen to express fully his opinions, and then by ballot, the responsive aye and no, the uplifted hand, or the division of the house, establish and support schools, open and repair highways, erect public buildings, provide for the relief of the poor and the burial of the dead, organize a police, determine methods of protection against fire and disease, direct and limit expenditures, authorize loans and levy taxes. Each citizen speaks with an equal voice, and gives an equal vote. In the exercise of functions which thus belong to each, in the bearing of burdens which are shared by all, the town becomes the common centre of interests and affections. Thus is constituted a miniature republic founded on the principle that each man is the best judge of what most interests himself. Here is power distributed widely among the people, left at its original source, not absorbed in some national capital, swayed by a single hand and administered by a central bureau. Here the civic faculty is developed in the discharge of official trusts by various functionaries, in the deliberations and votes of all the citizens. Not in ancient, not in modern times has there been such a school of republican liberty, such a nursery of active, healthy patriotism as a New England town-meeting, where civic duty is taught, where self-restraint and submission to lawful authority are practised, where parliamentary law is enforced, where the equality of all men is present to the eye, is seen in the equal rights accorded in debate, in the equal value given to all ballots, irrespective of age, descent, fortune or education. A vigorous public spirit and a generous devotion to the common weal are born of the sense of common interests, common burdens and common duties. The forms essential to civil society are observed with such yearly repetition that they become a second nature. The jurisdiction of the town is confined, indeed, to its own limits

and to questions which are, on the whole, easy of comprehension; but they involve principles and methods of analysis, investigation and judgment which are of wide application, and they test capacity and moral purpose. He who knows by observation and study how schools should be taught, highways built and maintained, the poor relieved, vagrants disciplined, expenditures adjusted and limited—all with wisdom and economy—is fitted to comprehend and act upon the broader questions which affect states and nations. Philosophers have dreamed of ideal republics, speculated on the art of government, and constructed model constitutions; but the plain citizen who has been trained in self-control, obedience to law, respect for the opinions of his fellows, and a wise economy, has acquired a discipline and faculty not to be attained in the study of Plato and Locke.

Thomas Jefferson thought our New England towns "the most perfect specimens of government in the world," and endeavored in vain to establish them in the institutions of Virginia. John Adams insisted often on their educating power in connection with the schools, the churches and the militia. "The virtues and talents of the people," said he in 1786, "are here formed; their temperance, patience, fortitude, prudence and justice, as well as their sagacity, knowledge, judgment, taste, skill, ingenuity, dexterity and industry." De Tocqueville, who of all foreigners has applied the most catholic judgment to our civil polity and social character, describes them in detail in his "Democracy in America," as training schools for citizens, and presenting a contrast to the centralized system of France.

I have touched upon the usual functions of town-meetings; but there come also, now and then, extraordinary epochs, as in the Revolution and our Civil War, when they serve a national purpose, raising volunteers for the common defence and anticipating with their quick patriotism the needs of the State and country. The formulas, in which the Continental Congress declared the rights of colonies and of men, were often almost literally the repetition of what had again and again been resolved in these local assemblies.

The duty which we owe to our town is not limited to its narrow jurisdiction; it is comprehensive in its relations. The vote here given runs along the lines of influence and power till it is felt in the national Capitol itself. The future of our republic rests on

the loyalty, the intelligence, the self-control, the conscience of the people, as they are kept alive and developed in multitudinous local centres like our own.

We have left, fellow-citizens, this evening, our individual homes, which are expressive of our means and of our tastes. There we have lived as families; there we were born, and children have been born to us; there death has thinned our numbers; there are enshrined the memories of our private hopes, affections, griefs, all the manifold experiences of domestic life. But this building is to have far different associations and to answer a far different purpose. It is the property, not of one or of several, but of all. It is the house of the people, in which all citizens of both sexes and all ages have each an undivided and indivisible share, to be transmitted to those who, so long as it shall stand, shall have their domicile or home within the boundaries of the town. It is to remain a common possession and inheritance devoted to the common purposes of citizenship. Welcome then, fellow-citizens, to your own house, which is to be owned, used and protected by yourselves, by all the citizens of the town.

Town meetings were held until 1836 in the parish meeting-house, now belonging to the First Congregational (Unitarian) society. In that and the succeeding year they were held in the stone meeting-house at the Railway Village. In 1838 the town occupied its first town-house, then just completed, which still stands a few feet to the south of this new one, and now looks meagre by contrast, costing, with land included, the modest sum of $2684 32, and paid for out of the surplus revenue which the United States had divided among the States, this Commonwealth dividing its share among the towns. The old house, to which now, after forty years of use, we bid adieu, has witnessed important deliberations, stirring debates, divisions of opinion, which we ourselves shall long remember, and which local history will preserve. It has in recent years proved unequal to our needs, particularly at the general town meeting in the spring, always fully attended, where all our various municipal interests are debated and decided. The project of a new one more spacious and substantial, had been to some extent discussed in previous years; but as so large an outlay required serious consideration, and public opinion had not yet matured, we waited for a more convenient season. At our meeting in March last, with no previous agitation and with unexpected unanimity, the town voted to erect

a new town-house, and appropriated for the purpose the liberal sum of thirty-five thousand dollars. It appointed a committee to execute the vote, and by formal action refused to hamper its discretion, either as to design or material. That committee has in less than a twelvemonth performed its duty, and now surrenders its trust. It has during the intervening period been in frequent session, and its sub-committees have been in almost daily activity. Let me in this presence bear witness to a fact, unhappily not always true of committees. There has been no bickering or mistrust in its deliberations, no parties formed within it, no self-seeking, no attempt in any of its members to obtain jobs or favors for his friends; but each has seemed to have an honest purpose to do his very best by the town which placed its confidence in him. Upon all the questions, some of which led naturally to opposite views, discussion brought harmony of judgment. In a single instance only, the choice of a plan, was there any substantial difference of opinion; and even then, when the decisive vote had been taken, the minority was as earnest as the majority in carrying out in the best possible manner the plan selected. The committee has administered an appropriation many times larger than the town has ever before entrusted to any committee or official board, and it has caused the building to be erected, the grounds to be prepared, and incidental expenses to be met, without exceeding the limit of expenditure which was imposed. There has been no loss from change of plan during the construction, and the town has, as we are assured, its full money's worth. Not a dollar has been used to pay for the services or expenses of any member of the committee, but the whole fund, without subtraction, has been spent on the public object to which it was devoted. Not having been a member of either of the sub-committees who were charged with the immediate supervision of the work, I feel justified in bearing this testimony. In these days, when so much is said of the selfishness of public agents and of their disregard of the limitations of their trusts, it is well to put on record an instance of official fidelity and of scrupulous respect for law and authority.

The work, as now completed, will, I am confident, meet with general and permanent favor. There are always æsthetic questions, particularly in architecture, which in our time copies and combines the styles of all countries and periods, on which artists

and amateurs disagree; but I believe that the design which our architects made will be approved by the educated as well as by the common taste.

Look about you and you will see that this main hall is spacious; the platform not remote from any point, so that the moderator or public speaker can be readily heard in every part of it; finished in good taste; easily accessible, without the necessity for old and disabled people to mount a weary staircase. There is a smaller hall for meetings where the attendance is not numerous, a commodious room for the Selectmen, a capacious fire-proof vault for our public records, some of which are ancient and precious, and convenient provision by means of ante-rooms and kitchen for social festivities. Let me emphasize this last need which this new building is to meet. An important truth which our fathers undervalued is now invariably acknowledged, and it is this — that the moral and religious culture which saves from vice and crime must be re-enforced by recreations and amusements which minister to the social nature. This hall, built primarily as a place where citizens are to meet and legislate on town affairs, may be used for a lecture-room; its floor is fitted for the movement of feet to music, and material refreshments can be served in the adjoining hall. Here, then, our town meetings are to be held with ample room for all voters, and a gallery from which spectators of both sexes may observe their deliberations; here we may assemble to discuss and determine action in seasons of public peril, whether of peace or war; here discourses on science, literature and moral interests may be given; here school reunions and other festivals may be held; here charity, asking help for good causes, may receive offerings in money or handiwork; here the music of human voices and of instruments may charm and elevate; here amateurs from our schools and homes may amuse and instruct in plays, comic and serious; here our young men and maidens may enjoy the dance; here, in a word, all civic duties and all social offices and interests shall have a place. A marble tablet under the arch at the main entrance awaits the names of soldiers who died for their country in our civil war, and an inscription commemorative of their fidelity and services. This will be deemed a worthier memorial of those who saved this nation from dismemberment and dedicated it to liberty, than a monument often unsightly and answering no purpose of taste or utility.

We now deliver to your hands, citizens, this substantial edifice, complete in its appointments, built of the best materials, and faithfully constructed, as we believe, in all its parts. Unless prostrated by some casualty it will answer the needs of the town for a century to come. It is difficult to foresee any changes of population, society, or taste, or any municipal occasions which will ever call for one more spacious or differently arranged.

This building adds another to the attractions and advantages of our town. We have highways which, though needing reconstruction on an improved system and reparation from time to time, rest on the excellent granite foundation which nature laid for them. We have a public library of well-chosen books, established in 1871, and numbering 8000 volumes, which has proved of great service to our people, particularly to the young. We have a cemetery, extending from the place of ancient sepulture over spacious grounds diversified with plain and elevation, well shaded by native and transplanted trees, laid out in open avenues and winding paths, beautified at the public as well as private expense, the simplicity and loveliness of nature not obscured by too much art and elaboration—fit resting-place for our beloved dead. Thanks to the good citizens whose constant interest has, without sensation or burdensome expenditure, secured for us this hallowed ground.

We have in the pleasant places where our lines have fallen blessings which came to us without effort or sacrifice of ourselves or our fathers. There are no four miles in our country—perhaps, without exaggeration, we might add on the globe—more endowed with all that is attractive in scenery than those which are covered by our municipal jurisdiction. Here are no morasses, no pestilential districts, no blasted heaths, no wastes where all is parched, scraggy and repulsive, no dead level wearisome to eye or feet; but the whole space filled with a pure and health-bringing air which rises from the sea and descends from the hills, spread out in varied landscapes, diversified with elevations and intervals, with forests and fields, watered by unfailing brooks, and even the hills fed by perpetual springs. Here on our fair heritage are combined the Blue Hills to the south, from which came, according to Roger Williams, the Indian name of our beloved Commonwealth —Massachusetts; the Neponset river flowing along our northern border, and the ocean view to the east. You who have journeyed in other lands, along the Charente, the Loire, or the Arno, what

fairer prospect have you seen than the eye sweeps as you stand on Milton Hill looking on the river as with changing tides it spreads out a broad lake or withdraws to its narrow bed; on eminences crowned with villas; on villages nestling in valleys or covering elevations; on church spires testifying to Christian worship; on the islands and beacon lights in the harbor of New England's metropolis; on ships departing and returning on their errands of commerce and civilization.

Looking southward on the same highway, the old Plymouth road, the eye glides along a scene hardly less picturesque which embraces the interval and the hills beyond. Standing on Brush Hill, with no intervening obstruction between you and the Blue Hills, there lies spread out before you nature in one of her royal moods, a study worthy of some gifted artist. Passing on to the south, and ascending the hills themselves, which in a less modest nomenclature than ours would be classified as mountains, and there, on the summit, lies before you a magnificent panorama of cities, villages, mountains, valleys, rivers, lakes, the ocean,—where one may contemplate with reverence the works of the Creator, the intelligence of man, the life and growth of society, and the events of history which have transpired in successive generations, within the bounds of the horizon.

Nor is the natural beauty of this township confined to such favored sites as these, but it is distributed among our farms and along our roads. I have seen the artist sitting by our longest brook, which rises in the Blue Hills, and, flowing through the Hobart woods, falls into the Neponset, sketching the overhanging branches, the old trunks and the flowering meadows by its side, and placing on canvas beauties of which we live altogether too unconscious. Coming at the close of day from the railway station to my home, with the twin churches before me and the Blue Hills in the background, looking westward I have often paused to gaze on sunsets as finely colored as any I have ever seen on Italian skies. We have, indeed, villas and lawns which art has constructed and spread out, but, better still, we have retained the primitive forest where woodcock, partridge, quail and rabbit still linger; we have highways not too broad and lined with graceful elms; we have still, and long may we retain, that freshness of nature which makes the charm of Milton as a home and place of rest. If some lover of nature gifted with imagination like Wordsworth, who

glorified with sentiment the Lake district of England and peopled it with ideal forms, shall ever be born or come to live among us, he will find all about him food for his contemplative spirit and poetic genius.

It has been customary at dedications like this to review the history of the town from its settlement. But I decline a task which at our second centennial anniversary was so well performed by our townsman, Mr. Robbins. The chronicles of its churches have been written by two of its pastors and present citizens, the Rev. Dr. Morison and the Rev. Frederick Frothingham, both of whom are with us this evening. May we not also hope that before long we shall welcome a complete history of the town, full of accurate narrative, authentic reminiscences, choice incidents of biography and pictures of its life in different periods, from another clergyman, the Rev. Dr. Teele, who has already gathered valuable materials, and whose recent retirement from a long and useful pastorate of twenty-five years leaves him an opportunity to render this most important service to the community?

We do not claim for our town any extraordinary annals. It has no battle-fields; it has not, like one of its neighbors, been the birth-place and burial-place of Presidents. It boasts no remarkable strides in population or material development. Incorporated by the Act of May 7, 1662, it was the fifty-first town established, and, three having disappeared by annexation to Boston, it is now among the towns and cities of the Commonwealth the forty-eighth in age. It numbered 743 souls in 1765; 1213 in 1776; 1039 in 1790; 1143 in 1800; 1264 in 1810; 1502 in 1820; 1576 in 1830; 1822 in 1840; 2241 in 1850; 2669 in 1860; 2683 in 1870 (some of our territory having been made a part of Hyde Park in 1868), and 2738 in 1875.

Our countrymen sometimes lament the newness of American life, and covet the antiquity of older nations. We forget, however, how venerable some of our institutions are. The municipal history of this town, beginning with 1662 and extending along a line of 217 years, runs parallel with the most marvellous epochs of modern times. When it began, Louis XIV., "the grand monarch," as he is called, ruled France—a reign which brings before us Mazarin and Colbert, Turenne and Conde, Bossuet, Fenelon and Pascal, and the revocation of the edict of Nantes. In England, Charles II. was the head of a dissolute court; Sir Henry Vane, once Gov-

ernor of Massachusetts, was on his way to the scaffold; Milton was composing in blindness his "Paradise Lost," and Bunyan was writing in Bedford jail the "Pilgrim's Progress." The incorporation of our town was but thirty years after Gustavus Adolphus fell at Lutzen, and it was ten years earlier than the birth of Peter the Great, who was to consolidate the great empire of the North, and bring Russia into the family of European states. What afterwards became Prussia was then but a parcel of electorates and duchies. The Thirty Years' War had just closed with the peace of Westphalia. The Ottoman power was still threatening Europe, and was yet to be broken before the gates of Vienna. No book in the English tongue, and now in general use, had then been printed, except Shakespeare and Bacon and the English Bible. This municipality has, in different generations, witnessed a procession of great events; the growth of constitutional liberty in England; a succession of revolutions in France, ending at last, let us hope, in a permanent republic, just as well as free; the creation of new powers, as Prussia, Greece, Italy and the new Germany; the American colonies passing into allied states, and then to a sovereign and united nation: the emancipation of the African race on this continent and of the serfs of Russia, both in a single decade; manifold triumphs through the world in art, science, civilization and humanity. Surely, if there is a charm in antiquity, in venerable age, in a history contemporary with that of the world's most progressive period, our town with its remote beginning and its continuous life may claim it for itself.

Our town has been conspicuous for the good sense and solid character of its citizens, and in some epochs for names which mankind will remember. When our fathers contended for existence against Philip of Pokanoket, her Captain Wadsworth fell bravely in Sudbury, with his gallant and devoted band, and in a graveyard of that town is a monument with the inscription: "Captain Samuel Wadsworth of Milton, his Lieut. Sharp of Brookline, and twenty-six other soldiers fighting for the defence of their country were slain by the Indian enemy and lye buried in this place." The Voses and Sumners served their country with honor in the army of the Revolution and in the war with England in 1812, and theirs and other names of our citizens are among the recorded heroisms of our Civil War. In an early period this town gave a president to Harvard College in the person

of Benjamin Wadsworth. Some of its citizens have been identified with the civil and judicial history of the State. The town has witnessed within its limits some historic scenes, the preaching of John Eliot and George Whitefield, and the passage of the Suffolk Resolves in the house of Captain Daniel Vose, drawn by Joseph Warren, and regarded as the earliest organized demonstration for independence in the colonies.

There has been a continuity in the life of this town rare in municipal history. Growing in population by natural increase rather than by accessions from other places, there has been a steady flow of influence and character from one generation to another. Eight of the original trustees, to whom in 1664 a tract of land was conveyed for "a meeting-house and other ministerial purposes," have always since had and still have descendants in the town bearing their names and in some instances living upon and holding, without break in the chain of title, their ancestral acres—the Voses, Wadsworths, Tuckers, Summers, Gullivers, Babcocks, Swifts and Cranes. It has a remarkable record for longevity, including in successive generations an unusual number of inhabitants who have lived to fourscore years, and even passed in health and vigor far beyond that limit. The long service of many of its clergymen signifies its conservative and steady-going character. Five active pastorates, those of Peter Thacher, John Taylor, Nathaniel Robbins, Samuel Gile and John H Morison, equal a period of one hundred and sixty-seven years, of which those of Thacher and Robbins were each nearly half a century in duration. Three lives, always identified with the town, connect us with the early part of the eighteenth century. Nathaniel Robbins, the third minister of the Milton church, lived from 1726 to 1795. His son Edward H. Robbins, an early lieutenant-governor of the State, lived from 1758 to 1829; and we hoped to have with us this evening next in the line, worthy alike of sire and grandsire, the Hon. James M. Robbins, who at the age of eighty-two is in the full enjoyment of his powers, and active for the public good. May a gracious Providence spare for years to come a life so precious in itself, so honored in the generations before it!

The tone of municipal life has been at all times sensibly affected by the superior intelligence of leading citizens. Fortunate the people who have this advantage! Thrice fortunate the people who value and profit by it! The town has probably counted among its

citizens, at different periods, more graduates of Harvard College than any one of similar population in the State, and their trained intellects and large views have been felt at all periods in its social life and public action. We greet this evening, as one of our most welcome guests, a representative of the ancient university, Mr. James B. Thayer, Royall professor of the Dane law-school,—no longer of us as a citizen, but always of us as a friend—whose scholarly tastes, neighborly offices and beneficent activity in civic duties remain in fresh remembrance.

There is another feature in the character of the town which deserves mention. A kindly spirit of association prevails among our people, with no sharp divisions into sects, occupations and family groups. Wealth here is not supercilious and exclusive, but hospitable, open-handed and sympathetic. There is little of poverty and dependence, but a general condition of comfort. There are no wide estates tilled by tenants, but, more than in most communities, each man is the owner of the house he lives in. As the result, there prevails a sense of self-respect and of respect for others.

In political controversies the vote of the town has been steadily for freedom, for the support of the government and the honest administration of state affairs. In commemoration of the ratification of Jay's treaty, by which Washington upheld against clamor the peace of the country, an arch was erected over the bridge at the Lower Mills, at the instance of Captain John Lillie, an officer of the army of the Revolution then a citizen of the place, which bore this inscription, "We unite in defence of our country and its laws," —a resolution to which the town, and may I be permitted to add, his descendants have ever since been loyal.

The town, in its ordinary proceedings, has been noted for prudence and deliberate action. Though never niggardly, and meeting cheerfully all necessary outlays, it has rarely, if ever, spent money foolishly, and it kept its head level in the flush times which followed the civil war. This wise economy, which is true statesmanship alike in the government of towns and commonwealths, has enabled us without any pressure or inconvenience to erect this tasteful and capacious edifice, and to pay for it in four yearly instalments, one of which was included in the tax bills you have recently paid, the entire rate being only seven dollars on a thousand. Only ten of the three hundred and forty-four towns and

cities have this year a tax-rate less than ours, and until a loan was obtained to pay the cost of this building, Milton was one of the sixty-three towns in the State absolutely free from debt. This exhibit we have a right to regard with satisfaction. Numerous municipalities in other States are now bankrupt, or, though able to pay, are repudiating their obligations. In our own State, where no such dishonor has yet come, cities and towns have built water-works costing twice what they should, opened highways for the benefit of speculators, or, worse yet, plunged into railway schemes which are no better than confiscation. Weighed down with taxation, they are expelling capital from their limits, and are forcing it to seek protection in communities which are still governed by maxims of prudence and justice. Hereafter, more than ever before, that town is to hold its own and grow in strength, which keeps out of debt, pays as it goes, and gives assurance that persons and property are secure within its jurisdiction.

And now, fellow-citizens, to the performance of the civil duties and functions belonging to ordinary times or coming only in great exigencies,—to the elective franchise, the highest right and the highest duty of the citizen, to be exercised and performed soberly, justly, and with a deep sense of moral responsibility—to all the uses of municipal government, to rational amusements, to knowledge, to patriotism, to liberty and law, this noble structure we now dedicate, full of hope that the fidelity, love of order, prudence and public spirit, which distinguished our fathers, shall abide evermore with their posterity. Entering this new house, we enter a new period of municipal history. Let us begin its use with a profound sense of our obligations as neighbors, as fellow-townsmen, as citizens of our common country. Let us resolve that, so far as in us lies, our votes shall be for justice, honor, integrity, and the common good. Let these walls echo only to the inspirations of a pure and elevated patriotism. Here, amid all differences of opinion, let there be a united effort to advance the morals and promote the welfare of this and the coming generations. Let us strive for higher standards of civic action, for nobler ideals in conduct and life; and trusting that God will be with us, as he was with our fathers, let us hope that they who a century hence shall unroll the records of our time may find in us, too, something worthy of imitation and gratitude.

SELECTMEN'S REPORT.

The Selectmen of Milton herewith present to the town the following statement of the expenditures for the financial year ending January 31, 1881. In administering the affairs of the town we have in all cases endeavored to confine the disbursements to the lowest possible amount consistent with the requirements of the welfare of our towns-people.

SCHOOLS.

The management of the Schools and school buildings is wholly in charge of the School Committee, whose report will be found elsewhere.

HIGHWAYS.

At the annual meeting of the town a superintendent of streets was elected, under whose charge the highways, bridges and lamps have been during the past year.

POLICE.

In accordance with the vote of the town instructing us to appoint a night watch for the several sections of the town, five (5) men were appointed, and the following districts were established: —

District 1.—East Milton, from Quincy line to Algerine Corner.

District 2.—Centre street to John W. Brooks' stable, over Milton Hill to Churchill's Lane.

District 3.—From Churchill's Lane over Milton Hill to Boston line, Randolph avenue to School street, School street to Canton avenue to Milton Village.

District 4.—Mattapan, from Boston line to Brook Road, up Thatcher street to Canton avenue and Highland street, thence to Blue Hill Post Office.

District 5.—West District, from Canton line over Canton avenue to Robbins street, Robbins street to Brush Hill Road, thence to Paul's Bridge, Hemenway street to Blue Hill avenue, to Canton avenue.

This system meets with the approbation of our citizens.

FINANCE.

It is a source of gratification to the Board to present to the town so favorable a statement in regard to the finances. It is well known that when the town voted to create the debt for the purpose of building the new Town Hall, it was to be liquidated in four annual instalments. There has already been paid three, and, although the fourth and last does not become due until the next financial year, a sufficient sum has already been saved to pay the same, and also all other outstanding claims against the town, hence the town is today practically without a debt. Under the existing circumstances we see no reason why the rate of taxation for the ensuing year should exceed about six dollars per thousand.

POOR.

During the past year we have had many notifications from various cities and towns of aid being rendered and charged to Milton, which have required much investigation under the present complicated Pauper Laws, notwithstanding which only one new case has been settled upon the town. The inmates of the Almshouse we have always found in a neat and cheerful condition, and its whole appearance speaks in praise of the matron, Mrs. Sanford.

Feeling it very unsafe having stoves in the different rooms of the inmates we have had a furnace put in which warms the whole house.

FIRE DEPARTMENT.

We would call your attention to the report of your engineers in regard to taking some action towards purchasing a Chemical Engine. Milton has for some years depended in a measure upon assistance from the fire department of Boston, whose commissioners now feel that they shall be obliged to notify us that on and after a certain date they will have to withdraw assistance, unless Milton takes some action towards helping herself.

IMPROVEMENTS.

Through the exertions of Mrs. G. W. Greene, aided by generous contributions from public spirited friends, a rustic stone fountain and watering trough has been erected upon the Square, near Paul's Bridge—the water being supplied from the acqueduct of J. Mann, Esq. Thus one of the entrances to the town has been made attractive, and we feel that the donors will ever receive the thanks of the public and the town the incentive to make its other public squares places pleasing to the eye.

J. WALTER BRADLEE,
JOHN H. BURT,
OTIS S. GODFREY,
Selectmen of Milton.

REPORT OF TRUSTEES OF MILTON CEMETERY.

The work in the Cemetery has been more difficult and less satisfactory, during the past season, than in former years, on account of the dry weather.

The fresh, green-sward, which gives beauty and attractiveness to the lots, has been injured, and in some lots partially destroyed; and grass and plants of a less desirable, but more hardy kind, have usurped the place. But this injury may be repaired. It is believed that the weeds and coarse matter may be displaced, and the grass restored, by the application of seed, and by the liberal supply of enriching substances.

The experience of the summer has led the Trustees to see the necessity of some better mode of applying water to the lots, and plants, through the dry season. Our wells afford an ample supply of water; but without the means of conveying, and applying, the water to the grass and flowers, they are of little use.

We hope this want may be met before the drought of another summer.

The Trustees have paid all bills for the Receiving Tomb. Its general use, during the winter, has proved it to be well suited to the purposes for which it is designed; and, as far as we are informed, satisfactory to all.

Twenty rods of the boundary wall on the east side of the Cemetery have been built.

Much labor has been performed on lots and avenues.

The dry season afforded an unusual opportunity for work on the proposed pond. The Trustees would have pressed the work forward even to completion, had the means been in their hands. A beginning has been made. The ground has been laid out and surveyed; and levels have been taken, in part. A suitable outlet has been opened, and finished, by which the flow of water may be controlled, and the excavation of the pond may be more easily made. The Trustees recommend to the town the early completion of this work. For the general work of the Cemetery the ensuing year, an appropriation of $2,000.00 is recommended.

Respectfully submitted.

A. K. TEELE,
For the Trustees.

REPORT OF TRUSTEES OF PUBLIC LIBRARY.

Three hundred volumes have been added to the Library since the last report, making the whole number of books in the Library 8,636.

Eighteen hundred and sixty persons have subscribed their names to the regulations, and have thus been empowered to draw books from the Library; of these, 900 are now taking books.

The weekly average of volumes given out is 350.

The Pall Mall Budget has been sent us, very kindly, by Mrs. J. C. Bancroft, during the year. We are also indebted to the publishers of the Dedham Transcript, and the Musical Herald for their papers.

Many patrons of the Library have had the privilege of leaving books at the Post Office, in charge of its officers, in the morning, when the Library is closed; this has proved a great convenience, for which the Trustees, and all interested, tender the obliging and friendly Post Mistress and Assistant, sincere thanks.

The Trustees have just now learned of the donation of many valuable works to the Library by their fellow-citizen, Mr. H. P. Kidder, among which are the following:—Michaux & Nuttal's "North American Sylva," 5 vols.; "Punch," 1842 to 1878, 17 vols.; Dore's "Don Quixote;" Jacquemart's "History of Furniture;" Woltmann's "History of Painting;" "Picturesque America;" 2 vols.; Trollopes "Italy;" Marcoy's "South America," 2 vols.; "Ancient Rome," "India;" "The Rhine." Most of these are rare and costly works; which, with our limited funds, we should hardly feel authorized to purchase; but they are most valuable additions to the Library. The Trustees offer hearty thanks to Mr. Kidder for this new act of courtesy; and for his interest in the Library and in the town.

Respectfully submitted.

A. K. TEELE,
For the Trustees.

ENGINEERS' REPORT.

MILTON, February 1, 1881.

To the Honorable Board of Selectmen : —

GENTLEMEN : — The third annual report upon the condition of the Fire Department is herewith presented, containing a list of the several companies, with number of members and officers, also of hydrants and reservoirs, and their location, together with a statement of fires which have occured, during the year ending February 1, 1881.

The roll of the Department at the present time numbers seventy-six members, and comprises a Chief and four Assistant Engineers, one hand engine company, one hook and ladder company, and one hose company. The number of men now attached to the different companies is as follows, viz: Hydrant Engine Company, No. 1, forty-one men; James T. Lord, Foreman; William A. Smith, Assistant Foreman. Granite Hook and Ladder Company, No. 1, twenty-five men; Orin F. Bates, Foreman; George E. Triggs, First Assistant. 90 Hose Company, five men, under the charge of the District Engineer.

The number of reservoirs of the Department is five, and are located as follows; One at Town Hall; one on Granite place, East Milton; one corner of Adams and Mechanic streets; one corner of Mechanic street and Granite avenue; and one corner of Adams street and Granite avenue. Six hydrants are located at the Lower Mills, on Adams street, between the corner of Canton avenue and Samuel Gannett's mill.

The buildings and apparatus of the Department remain the same as last reported, with the exception of a relief hose carriage, which was purchased this year, and located at the Lower Mills. All are in good condition. In addition to the above, an alarm bell, weighing 500 pounds, has been purchased for the Engine House at East Milton. The old one was presented to the School Committee, for the West School House.

But three fires have occurred in town this year, which were in the following order: March 25, stable of E. M.

Cary, on Milton Hill; cause, overheated stove; loss about $15. (This was the only fire in town at which the Department was called out.) April 2, slight fire in mill at Mattapan, owned by Tileston & Hollingsworth; loss, $25. December 1, house at East Milton, owned by E. H. Adams; cause, overheated stove; loss, $75. Had the fire burned ten minutes longer without being discovered property to the amount of $20,000 would probably have been destroyed.

It is a matter upon which all our citizens are to be congratulated that our town has been for the past year so remarkably exempt from the ravages of fire. The value of the property destroyed during this period will hardly exceed one hundred and fifty dollars. This good fortune, we believe, cannot always exist, as there are localities in town in which, should a fire occur, (as it is liable to at any moment) without aid from Quincy or the city of Boston, a conflagration could not be avoided. We believe the time has come for the town to take some action in regard to its better protection from fire, especially as two-thirds of the town depend wholly on Boston for aid which they propose to withdraw in case the town take no action in the matter. Now, after consideration of the matter, we would recommend the appropriation of $5,000 to purchase and equip a chemical fire extinguisher, the same to be located in the centre of the town. If this should be adopted, we would recommend an appropriation of $2,500 for current expenses of the ensuing year.

The Department maintains its rank for order and for promptness in responding to alarms, and we trust the officers and members have performed their respective duties in a manner which has met the approval of your honorable body.

Respectfully submitted.

WILLIAM S. LEAVITT,
Chief.
WALTER B. RANDLET,
Clerk.
JOHN H. BURT.
JOHN B. BADGER.
R. L. CHAPMAN.
Board of Engineers.

The Auditors submit to the town the forty-fourth annual report of its affairs for the year ending February 1, 1881. The books and accounts of the Selectmen and Treasurer have been examined, vouchers compared and found correct. In their tour of inspection at the Almshouse they were pleased to see the care shown for the comfort of the inmates, and the order and neatness everywhere observable.

JOHN VOSE,
PATRICK McDERMOTT,
Auditors.

SELECTMEN'S REPORT.

The Selectmen of Milton, in presenting the forty-fifth annual report, congratulate the citizens of the town upon its remarkable prosperity.

A large increase in the personal estate has been added to our valuation, so that now fully two thirds of our taxes are derived from that class of property.

This increase in our valuation is owing to new residents being attracted to the town by the inducements offered in the way of excellent schools, good highways, night-watch, efficient fire department, street lamps, etc.

SCHOOLS.

As in preceding years the schools have been entirely under the charge of the School Committee, who will report to the citizens their doings.

HIGHWAYS.

The town, at its last annual meeting, voted to accept Chap. 158, Acts 1871, and elected three Road Commissioners, under whom the entire charge of all matters appertaining to the highways, bridges, and street lamps has been the past year. The report of the board will be found elsewhere.

POLICE.

The system of night patrol has given entire satisfaction the past year. While many burglaries have been committed in adjoining towns, we have been comparatively free from such occurrences.

Owing to the large amount of wood destroyed by incendiary fires in the past, we have felt it our duty to protect the owners from such depredations, and on Sundays and holidays have had special duties performed.

POOR.

As overseers of the poor we would state that the number at almshouse has been increased by eight persons, making sixteen inmates now being cared for by this institution.

There is a manifest want of room at the house, both for working purposes and sleeping apartments. We would recommend the building of an addition.

The barn should also be enlarged, as it is inadequate to the wants of the institution.

FIRE DEPARTMENT.

At the last annual meeting an appropriation was made to procure for the town a chemical engine and build a house for the same. A committee was appointed consisting of the Board of Engineers and Selectmen to carry out said vote.

A contract was made with Messrs J. H. Burt & Co. (they being the lowest bidders), for the construction of an engine-house, to be built of brick, the committee having voted unanimously to construct it of that material.

A Babcock chemical engine with all the latest improvements was contracted for.

A pair of horses suitable for drawing the engine to any part of the town were purchased. A set of patent swinging harness was purchased; also a supply wagon, built at Concord, N. H., was obtained.

In order to render the department as efficient as possible, telephonic communication has been established, and boxes have been located at East Milton and the Lower Mills connecting with the engine-house.

Considerable grading has been done around the house, and the entrance to the same paved with granite blocks. In carrying out the instructions of the town, it has been our purpose to obtain the best that could be procured.

HEALTH.

As there has been no contagious disease requiring the attention of the Board, little has been done. An occasional nuisance has

been reported, and, so far as possible, the cause for complaint has been removed. The labors of the health officer has caused marked improvement in various localities.

FINANCE.

Our financial condition is such that we can say we owe no person a dollar, and have about ten thousand dollars in the treasury; and this has been accomplished with a rate of taxation of only five dollars on the thousand; and while our expenditures must necessarily increase, as we are at the very threshold of the city, and improvements must keep pace with the times, still all the necessaries can be had without increase in the rate.

J. WALTER BRADLEE.
JOHN H. BURT.
OTIS S. GODFREY.

REPORT

OF THE

ROAD COMMISSIONERS.

The expenditures upon the roads for the current year have been nearly as follows: —

FOR PERMANENT IMPROVEMENTS.

Harland Street	$600
School Street	400
Randolph Avenue, below Mr. Vose's	1,700
" " " Sigourney Hollow	700
West Districts	1,000
Mattapan	650
Milton Hill Road	855
" " " paving	1,300
	$7,205

And for general care of the roads about $7,000 more.

Owing to a misapprehension, the expenses were larger than they might have been, but we can give the reasonable assurance that none of the money has been wasted or lost, but has gone into the permanent improvement.

In consequence of rains of unusual violence, it has been difficult to keep the surface of the roads constantly in good order, without a larger force than we are able to employ with our present appropriation.

We are more than ever impressed with the importance of the question of the roads in relation to the prosperity, development, and comfort of the town, and are satisfied that any reasonable appropriation for their care and improvement is good economy, always providing that it is honestly and intelligently expended.

While we have made improvements on the roads with the means at our disposal, we are aware that much better work could be done provided the town were supplied with proper machinery, the first cost of which, though large, would be amply repaid in the permanent results. The town would do well to buy a steam stone breaker and roller, at a cost probably of about $6,000, which could be used for the purpose of preparing stone and rolling the roads afterwards. It should also have one or more watering carts, as, with the pump which we bought this year, they can be filled from any brook near the road that is being worked upon. We should not, however, advise the expenditures necessary for these improvements at this time, the town having voted for a new road, which will require a large outlay for the coming year.

We should also advise a moderate expenditure for the laying down of permanent plank sidewalks from the principal schools and railroad stations, at the rate of one or two miles a year.

By an article in the warrant of last year, the town voted to put in order and fence the squares. Upon looking into the matter, we decided to postpone action, as the subject admitted some thought. To do this properly and well will require an outlay of about one thousand dollars. While intending in all cases to carry out the wishes of the town, we think it wiser to submit estimates of the cost of work of any magnitude before beginning it, even though this necessitates delay.

The difficulty and expense of obtaining good gravel in sufficient quantities, at fair rates, and the fact that we require large quantities of it, have made it seem wise for us to buy, at fair prices, some pieces of land containing gravel, and also the right to take gravel from some pits now in use, which we recommend to the town to take at the price paid for them. These are the Hicks lot on Blue Hill Avenue, and a lot near Mattapan upon the same road, the first at $1,200, the second at $500.

We take this occasion to state that the time and labor required by the performance of the duties of this commission are so great that we have to ask for the members the hearty co-operation and support of the town, as this alone would induce us or any other proper persons to undertake so burdensome a duty; and as these labors

must increase until the town is provided with much better roads, we feel that all the encouragement that can be safely given will be needed in order to accomplish the best results.

We invite the widest criticisms and most general interest, and will receive all suggestions with respectful attention.

We recommend an appropriation of $15,000 for the general care and improvement of the roads, and $2,000 for building sidewalks, for the coming year.

The details of the expenditures will be found in the accounts of the superintendent, Mr. Tucker.

O. W. PEABODY,
G. K. GANNETT,
J. LITTLEFIELD.
Commissioners of Highways.

REPORT

OF

TRUSTEES OF MILTON CEMETERY.

The Trustees of the Cemetery beg to report that the work of the last year has been generally satisfactory and the progress considerable. The labor and expense of gradually putting in order the new piece of land are a large addition to the care of the trustees.

The prospect of making an ornamental pond is very good. An appropriation of one thousand dollars for this puspose is recommended.

The trustees have made some slight alterations in carrying out the plan adopted by the town for the laying out, as well as in reserving for the purpose of holding memorial services, a space adapted to that object which can be arranged for the comfort of all attending these interesting occasions.

The trustees congratulate you upon the rapidly growing interest in the cemetery, as shown by the increasing number of visitors, both amongst ourselves and strangers, and are glad to perceive that the general treatment of lots and open spaces with turf and trees, rather than with elaborate and costly marbles or flowers, meets with almost universal approbation.

The extravagant use of flowers and ornamental stone in some of the more celebrated cemeteries about us has already led to a decided reaction in favor of our more simple and appropriate treatment.

In view of the considerable enlargement of the cemetery and increased work involved by it, the trustees recommend an appropriation of $3,000 for the coming year, exclusive of the sum named for the pond.

O. A. PEABODY, *Chairman.*
S. A. BURT.
A. K. TEELE.
A. L. HOLLINGSWORTH.
J. WALTER BRADLEE, *Secretary.*

REPORT

OF

TRUSTEES OF PUBLIC LIBRARY.

The trustees, in common with other citizens of the town, have long felt the need of better accommodations for our library. An opportunity to supply this want was offered early in the year by the proprietors of the new block erected on the former sight of the old library, which the trustees thought it their duty to improve, and have secured a room large enough to accommodate the library many years, and finished more in accord with modern taste and the spirit of the times than the old room. This will somewhat increase the annual expense of the library; but the trustees think the town will justify their action in consideration of the improved accommodations.

Three hundred and six volumes have been added to the library during the year, making the number now 8,942. Upon the urgent request of citizens of East Milton, the trustees tried the experiment of transporting books to and from the library for the people of that section, at the expense of the town, and finding that the increase in circulation warranted it, have continued it. An additional inducement to do this was the liberality of the people of that part of the town in raising nearly $600 to hire a reading-room and furnish it with papers and magazines.

The trustees tender the sincere thanks of the town to Mr. H. P. Kidder for a valuable oil painting by Voltz, of Munich, to add to the attractions of the new room. The *American Art Review* has been sent us during the year by Augustus Hemmenway, Esq. We are also under obligations to the publishers of the Dedham *Transcript*, *Norfolk County Gazette*, and *Musical Herald* for their publications.

The usual bulletin of books — added during the year — has been issued and distributed throughout the town. The number of books taken from the library during the year has been as large as usual. No books have been lost for two years.

E. D. WADSWORTH,

for the Trustees.

ENGINEERS' REPORT.

MILTON, Feb. 1, 1882.

TO THE HONORABLE BOARD OF SELECTMEN:

Gentlemen,— The close of another year renders it our duty to submit to you a report upon the condition of the Fire Department for the year ending this date, containing a list of the several companies, and schedule of apparatus in their charge; also a statement of fires and alarms which have occurred during the year.

The roll of the department at present numbers eighty-one members, comprising a chief and four assistant engineers, one hand-engine company, one hook and ladder company, one chemical-engine company, and one hose company. The number of men now attached to the different companies and schedule of their apparatus are as follows, viz.: —

Hydrant Engine Company, No. 1: 48 men; J. F. Lord, foreman; W. A. Smith, assistant foreman. One hand engine, one hose jumper, 30 feet suction hose, 850 feet leading hose, 5 lanterns, 5 rubber coats, 2 axes, also life ropes, hose ropes, and spanners.

Granite Hook and Ladder Company: 17 men; G. F. Choate, foreman; E. J. Eaton, assistant foreman. The carriage is equipped with 6 ladders of various lengths, 2 splice ladders, one 40 and one 30 feet, 2 guy ropes, 22 leather and 8 wooden buckets, 2 large hooks with chains and ropes attached, 2 hand hooks with poles, 2 crotch poles, 2 forks, 2 crowbars, 2 fire axes, 2 plaster hooks, 6 common Johnson pumps, and 2 with 30 feet $\frac{1}{2}$-inch rubber hose attached, 5 lanterns, 12 life ropes, and 1 extra ladder hook.

90's Hose Company: 4 men, under the charge of Engineer Chapman; 2 hose jumpers, 650 feet leading hose, 1 axe, 3 lanterns, hose ropes, spanners.

Chemical Engine Company, No. 1: 6 men; W. H. Sias, foreman; Fred Sanford, assistant foreman; J. H. Shepherd, driver. By the purchase of the chemical engine, we consider a great addition has been made to the department. It is a double-tank engine of 60 gallons each; was built by the Chicago Fire Extinguisher Company, and is a most excellent machine, is equipped with 200 feet $\frac{3}{4}$-inch rubber hose, 24 feet suction hose, and force pump for filling tanks, fire axe, plaster hook, rubber buckets, fire hats, rubber coats, acid bottles, and soda bags. We have in use the Barry patent swinging harness, which hangs suspended by weights over the poles of the engine.

The horses, an excellent pair, well adapted for their work, are in fine condition; their weight at present is 2,400 pounds.

The reservoirs and buildings of the department remain the same as last reported, with the addition of the chemical-engine house, which was built the past season, in the rear of Town Hall. This is a substantial brick building, with an excellent cellar, a commodious engine-room on first floor, with stalls for horses, and a tenement of four rooms above. The house is connected by telephone at all hours, with R. L. Chapman's house at Lower Mills, and W. B. Randlett's at East Milton. It is also accessible, through the central office, between the hours of seven A. M. and nine P. M., by all parties having telephones.

The department, or a portion of it, has been called out eleven times during the year, five times for alarms of fire in neighboring villages, and six times for fires in town. The alarms occurred in the following order: April 29, alarm caused by burning woods at West Quincy; June 24, slight fire at Nickerson's mill, at Lower Mills, caused by sparks from chimney; August, fire at West Quincy (Reardon's barn); September 26, slight fire in closet in the residence of Thomas Madden, on Highland Street; November 16, alarm from box 351, Boston, fire in J. H. Bourne's paint shop; November 26, alarm from box 352, Boston, fire in stable of John Conness, River Street; November 24, fire in chimney in the residence of Mrs. Samuel Adams; January 13, residence of Isaac Loud, East Milton, partly destroyed; cause of fire unknown; loss on building, $1,800, insured; loss on furniture, $500, no insurance;

January 21, fire in chimney at the residence of F. Sanford; January 22, dwelling-house at Wollaston; loss, $11,000, insured; cause, defective flue; January 30, slight fire between stable of G. Skinner and shed of E. D. Wadsworth, at East Milton. Several fires have occurred to which no alarm was given, but by timely discovery were easily extinguished.

We recommend the appropriation of $2,500 for the current expenses for the ensuing year. We would also recommend the purchase of an alarm bell, to be placed in the tower of the Town Hall, and struck by wire from the engine house; also, the extension of the telephone line as soon as possible.

Our thanks are due your honorable Board for the courtesy shown on all occasions; also, to the officers and members of the different companies of the department for their promptness in responding when called upon.

Respectfully submitted,

W. S. LEAVITT, *Chief.*
W. B. RANDLETT, *Clerk.*
J. H. BURT.
R. L. CHAPMAN.
JOHN B. BADGER.

The Auditors submit to the town the forty-fifth annual report of its affairs for the year ending Feb. 1, 1882.

The books and accounts of the various officers have been examined, vouchers compared and found correct.

At the almshouse they were pleased with the order, neatness, and care shown for the comfort of the inmates, and its general management.

Respectfully submitted,

PATRICK McDERMOTT.
HENRY A. RICH.*

* Appointed by selectmen to fill vacancy occasioned by the illness of Mr. John Vose.
